- **Membership renewal time is here!**
 - **Lower exchange rates bring lower instrument prices**
 - **Revised seminar and conference schedule announced**
 - **MEDISEND protects in stock**
- And, some important reminders and updates . . .**

Tuesday, 10 January 2012

Happy New Year Dear Members, Colleagues and Friends of OIRF,

➤ Welcome back after the holiday season. Many of your 2012 Membership applications and renewals are arriving daily and we are preparing for a record membership year to celebrate the Institute's 40th Anniversary. Those of you who haven't sent yours in yet – do it today! Here's the link to the online [application](#) information.

Volume 8, Issue #1 is being prepared for publication in mid-February. Watch for another German journal article translation from Carolyn along with a new practice oriented article from **Dr. Simon Yu**.

➤ Have you seen the Euro to US/CDN exchange rates the last few weeks? Wow! There were days when the rates dropped dramatically (almost 10 points!), but it seems to have stabilized for now.

Thus, we have some drastically lowered prices and the new North American price lists for all instrumentation are available from Elaine. We will hold these prices as long as we can, but as Europe stabilizes the economies of Greece, Italy, Portugal, etc., etc. we can expect our exchange rates to soar again. This is the perfect opportunity to get those items you have been waiting to order.

A couple of examples to note are: Base price on the **MORA Super** has dropped almost \$1,800 and the brand new **MORA Nova** dropped by just over \$1,000. Other devices that are showing substantial savings are the **AMSAT-HC** and **BioPhoton Light Therapy**. Call Elaine or Carolyn today to take advantage of this exceptional pricing opportunity.

➡ I have posted a slightly revised seminar and [conference schedule](#) and ask you to make note of the minor date changes. Note that the dates for **Germany Tour #39** in the fall are still tentative until further speaker and Medicine Week lectures can be confirmed. Expect an update and announcements shortly.

In only a few short weeks the Institute will be in Tempe, Arizona for the **Pleo-Sanum Conference** featuring lectures from **Dr. Thomas Rau** (Switzerland), **Dr. Michael Margolis** (USA), **Dr. Michael Gerber** (USA) and **Dr. Gudrun Mекle** (Germany). This conference is sponsored by BioMed International and Terra Medica, and more [course details](#) can be found on their website. Please visit us at our stand and say hello!

Note also that the dates for the **Biological Medicine Symposium 2012** are confirmed for **June 15-17, 2012 in Vancouver, BC Canada**. **Dr. Uwe Uellendahl** has been invited to give us a workshop on the **MORA Nova** on June 14. Make plans to attend now. Speaker and registration details will be posted shortly.

➡ A reminder about the [MEDISEND protect](#) from **Advanced Medical Systems**: Yes, we have some of these hot little devices left in stock and I urge you to get your orders in now. Follow the link above for more details on this device that sets up a personal electrosmog shield when plugged into any USB port on your computer. Elaine will be able to ship immediately on receipt of your order. Price is \$125 US or \$135 CDN plus shipping. This is an introductory price that will not last long!

➡ The new [MORA Nova](#) by **Med-Tronik** is still promised to us as available for shipping in mid-January. Pricing sheets are available from Elaine. Med-Tronik is offering a substantial trade-in discount for your MORA Super and Interface. Update prices are also available for equivalent Electronic Homeopathy Test Set software. Trade-in discounts are available only until 31 July 2012.

➤ **Updates, Reminders and Announcements:**

➤ Volume 8, Issue #1 will publish in mid-February 2012. Watch for the annual Advisor's Article from **Dr. Simon Yu** and another translation out of the German journals from me along with the latest news, information and updates regarding seminars, conventions and activities.

➤ The Institute and Praxis2Practice websites have undergone some major renovations and reconstruction over the holidays. Please have patience if you run into a glitch (but let us know so we can get it fixed!!).

➤ Be sure to visit our **Facebook** page – will you be our friend?

We thank you for your continuing support and we hope you will join us for this 40th Anniversary year of celebrations, innovation and activities. Respectfully . . .

Carolyn

Oh okay, here's a short chuckle from our friend Alex N.: **Damn women drivers!**

Everyone reading this will enjoy it – no matter which gender you are . . .

This morning on the Interstate, I looked over to my left and there was a woman in a brand new Cadillac doing 65 mph with her face up next to her rear view mirror putting on her eyeliner.

I looked away for a couple seconds . . . to continue shaving and when I looked back she was halfway over in my lane still working on that makeup.

As a man, I don't scare easily.

But she scared me so much; I dropped my electric shaver which knocked the donut out of my other hand. In all the confusion of trying to straighten out the car using my knees against the steering wheel, it knocked my cell phone away from my ear which fell into the coffee between my legs! Splashed, and burned Big Peter and the Twins, ruined the damn phone, soaked my trousers, and disconnected an important call.

Damn women drivers!
