- Visit with OIRF at the Pleo-Sanum Conference, Feb. 17 & 18 in Tempe, Arizona
- OIRF Biological Medicine Symposium 2012 and workshops, June 15-17 with a MORA Nova Workshop on June 14
- New shipment of MEDISEND protects in stock
- And, some important reminders and updates . . .

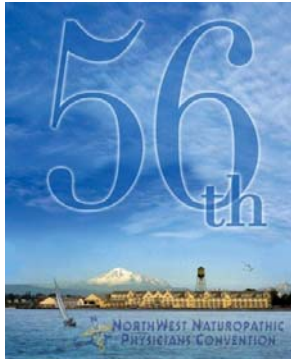

Wednesday, 25 January 2012

Dear Members, Colleagues and Friends,

➤ We are just stopping by with a few reminders as we all struggle through the January winter "blahs" and get back into our regular routines after the holidays. It's time to mark your calendars for the 2012 year and make sure you include these important dates.

➤ In only a few short weeks the Institute will be in Tempe, Arizona for the **Pleo-Sanum Conference** featuring lectures from **Dr. Thomas Rau** (Switzerland), **Dr. Michael Margolis** (USA), **Dr. Michael Gerber** (USA) and **Dr. Gudrun Mekle** (Germany). This conference is sponsored by BioMed International and Terra Medica, and more [course details](#) can be found on their website.

Carolyn will be traveling down to Phoenix to participate and we extend an invitation for you to visit us at our stand and say hello!

➤ Another important convention is also coming up. The 56th Annual **Northwest Naturopathic Physicians Convention** is open to all healthcare professionals with the theme of "Physician Heal Thyself".

This convention takes place May 17-20, 2012 in Blaine, Washington. This time Carolyn and Elaine will travel down to this beautiful resort and we are looking forward to the chance to meet you, chat with you, answer your questions and say hello. Please visit us at our stand!

➤ The **OIRF Biological Medicine Symposium 2012**.

This conference was very well received two years ago. We have made some changes to the format and have once again invited some of the OIRF advisors to present lectures. We have published a number of articles in "The Bridge" from our planned German keynote speaker who is famous for her work with AIDS and cancer.

Dates have been confirmed for June 15-17, 2012 with a **MORA Nova workshop** on June 14. Watch for more speaker and venue details. Book these dates on your calendar today to ensure you are able to attend.

➤ A reminder about the [MEDISEND protect](#) from **Advanced Medical Systems**: These little devices are flying off our shelves. Already we have brought in a second small shipment and many of those are already spoken for. Our personal units are installed daily on our computers and have greatly reduced the stress of sitting at our desks all day.

Follow the link above for more details on this device that sets up a personal electrosmog shield when plugged into any USB port on your computer. Elaine will be able to ship immediately on receipt of your order. Price is \$125 US or \$135 CDN plus shipping. This is an introductory price that will not last long!

➤ The new [MORA Nova](#) by **Med-Tronik** is now promised to us as available for shipping at the latest in mid-February. Another delay – but I trust it will be well worth the wait. Several docs have already arranged their upgrades and a few new BioResonance practitioners are also placed advance orders.

Nova pricing sheets are available from Elaine. Med-Tronik is offering a substantial trade-in discount for your MORA Super and Interface. Upgrade prices are also available for equivalent Electronic Test Set (ETS) software. Trade-in discounts are available only until 31 July 2012.

➡ **Updates, Reminders and Announcements:**

➤ Volume 8, Issue #1 will publish in mid-February 2012. Watch for the annual Advisor's Article from *Dr. Simon Yu* and another translation out of the German journals from me along with the latest news, information and updates regarding seminars, conventions and activities.

➤ The Institute and Praxis2Practice websites have undergone some major renovations and reconstruction over the holidays. Please have patience if you run into a glitch (but let us know so we can get it fixed!!).

➤ Be sure to visit our **Facebook** page – will you be our friend?

And one final important reminder: Have you sent in your membership renewal yet? If not – do it today! Here's the link to the online [application](#) information. We thank you for your continuing support and hope you will join us for this **40th Anniversary year** of celebrations, innovation and activities. Respectfully . . .

Carolyn
