- **Biological Medicine Symposium 2012, June 15-17
with a MORA Nova Workshop on June 14**
- **Visit with OIRF at the Pleo-Sanum Conference,
Feb. 17 & 18 in Tempe, Arizona**
- **New shipment of MEDISEND protects in stock**
- **And, some important reminders and updates . . .**

Wednesday, 08 February 2012

Dear Members, Colleagues and Friends,

➤ Here are the details and registration information for the **Biological Medicine Symposium 2012** scheduled for June 15-17, 2012 in Vancouver, BC Canada. As the arrangements for this Symposium have finally started falling into place a very exciting and distinctive program has emerged. The emphasis this year is on *Diagnosis and Therapy Applications For Your Biological Medicine Practice*.

Our Keynote Speaker will be **Prof. Roeland van Wijk, PhD** from The Netherlands. He is a long time colleague of *Prof. Dr. Fritz-Albert Popp* and spoke to one of our Germany Tour groups two years ago. His lecture on *BioPhotons in Diagnostics – Progress and Expectations* is sure to be a highlight of this Symposium.

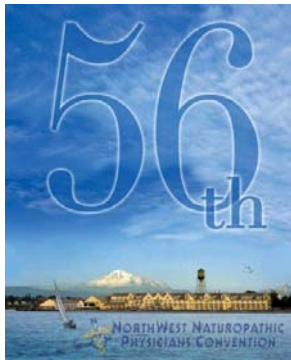

The North American introduction of the new MORA Nova from Med-Tronik will be presented by **PaedDr. Uwe Uellendahl, HP**. There will be a one day workshop on June 14, 2012. Dr. Uellendahl will also present some of the latest BioResonance techniques and findings during the Symposium.

There will be 9 further lecturers showing us practical and effective applications of a broad range of methods and techniques within Biological

Medicine. I invite you to take a look at the [Symposium details](#) on our website. We are looking forward to taking care of your advance registrations and to seeing you in Vancouver!

➡ Later next week the Institute will be in Tempe, Arizona for the **Pleo-Sanum Conference** featuring lectures from **Dr. Thomas Rau** (Switzerland), **Dr. Michael Margolis** (USA), **Dr. Michael Gerber** (USA) and **Dr. Gudrun Mекle** (Germany). This conference is sponsored by BioMed International and Terra Medica, and more [course details](#) can be found on their website.

Carolyn will be traveling down to Phoenix to participate and we extend an invitation for you to visit us at our stand and say hello!

➡ Another important convention is also coming up. The 56th Annual **Northwest Naturopathic Physicians Convention** is open to all healthcare professionals with the theme of "Physician Heal Thyself".

This convention takes place May 17-20, 2012 in Blaine, Washington. This time Carolyn and Elaine will travel down to this beautiful resort and we are looking forward to the chance to meet you, chat with you, answer your questions and say hello. Please visit us at our stand!

➡ A reminder about the [MEDISEND protect](#) from **Advanced Medical Systems**: These little devices are flying off our shelves. Already we have brought in a second small shipment and many of those are already spoken for. Our personal units are installed daily on our computers and have greatly reduced the stress of sitting at our desks all day.

Follow the link above for more details on this device that sets up a personal electromog shield when plugged into any USB port on your computer. Elaine will be able to ship immediately on receipt of your order. Price is \$125 US or \$135 CDN plus shipping. This is an introductory price that will not last long!

➡ The new [MORA Nova](#) by **Med-Tronik** is now promised to us as available for shipping at the latest in mid-February. Another delay – but I trust it will be well worth the wait. Several docs have already arranged their upgrades and a few new BioResonance practitioners are also placed advance orders.

Nova pricing sheets are available from Elaine. Med-Tronik is offering a substantial trade-in discount for your MORA Super and Interface. Upgrade prices are also available for equivalent Electronic Test Set (ETS) software. Excellent trade-in discounts are available only until 31 July 2012.

➡ **Updates, Reminders and Announcements:**

➤ Volume 8, Issue #1 will publish just prior to Carolyn's departure for the Pleo-Sanum Conference in Tempe. Watch for the annual Advisor's Article from **Dr. Simon Yu** another translation out of the German journals on BioResonance, an excellent (scientific) research article from Dr. Herrmann and Dr. Galle on BioResonance and a few other articles along with the latest news, information and updates regarding seminars, conventions and activities.

➤ The OIRF website has undergone some major renovations and reconstruction recently. Please have patience if you run into a glitch (but let us know so we can get it fixed!!).

➤ Be sure to visit our **Facebook** page – will you be our friend?

And one final important reminder: **Have you sent in your membership renewal yet?** If not – do it today! Please remember that this is the Institute's main fund raising activity of each year. We need your support to continue the ongoing research and education activities of this non-profit organization. Here's the link to the online [application](#) information. We thank you for your continuing support and hope you will join us for this **40th Anniversary year** of celebrations, innovation and activities. Respectfully . . .

Carolyn
