THE BRIDGE

Linking Practitioners of German Biological Medicine

Volume 10, Issue #8, August 2014

Thursday, 14 August 2014

Dear Colleagues, Friends and Supporters of OIRF,

👉 Welcome to Volume 10, Issue #8 of "The Bridge" newsletter for 2014!

Over the past several years we have seen OIRF Medical Advisor **Theodore (Ted) J. Cole, DO** bring us numerous articles based on his research and application of Pulsed Electro-Magnetic Field Therapy in his practice. In this Issue I am bringing you an encore presentation of one of his previous articles on the treatment of allergies with PEMF, as well as his further experiences and successes for 2014.

Dr. Cole's experiences reflect application of the highly recommended quality devices from **Advanced Medical Systems** (based on the research and development of **Dr. rer. nat. Wolfgang Ludwig**). AMS has a nice range of products available ranging from the little **Medisend Protect** for your computer (some in stock at OIRF for immediate delivery) to the "Everything in a Single System" setup for a professional practice.

We have recommended and worked with this very cooperative and efficient company for many years, and we continue our very high recommendation for the quality and effectiveness of these devices. If you are considering adding PEMF to your practice here is another way you can support OIRF. You can order all the devices directly from AMS, however if you mention OIRF you will receive a small discount (about 3%) and OIRF will receive a small donation from your order – with our grateful thanks.

Your September, Issue #9 of "The Bridge" is due for publication in mid-September and it is once again my turn to prepare an article or translation. I plan to complete the previously mentioned translation of an article on Color Therapy although there has been an interesting series of articles coming in with my current German journals. By September we are also approaching the various deadlines for the Germany Tour and I should have more details and enticements for you to join us this year.

➡ As these so-called lazy days of summer wind down and we are busy getting the kids ready to go back to school, we here at OIRF have been preparing for our move to a smaller and more efficient location. It has been exciting and tiring and dusty. Our mountains of boxes are ready to be loaded with books and the library will be moving to Dr. Dhanani's new Biological Medicine Centre later this month.

To assist us in our downsizing – or “right-sizing” as one of my advisors calls it – there are “**Sizzling Summer Savings**” available in the OIRF Garage Sale.

Many of the demonstrator devices and remedies listed in the original Garage Sale listings have already been sold and are now happily residing and working with their new owners. As we organized all the devices and prepped them for shipping, we were able to include many accessories, power cords, operating instructions and lots of goodies with every piece of equipment. Even at the quoted prices, these items are a real steal and are very definitely a good deal. We will again issue a revised listing just before the end of this month to show you what is left and perhaps give you a better description of each remaining item. Please contact our office quickly for any items you are interested in adding to your collection before they are cleared away.

We have also discovered multiple sets of some specialty test sets (like the tooth test sets of Dr. Schramm) that Dr. Sturm had stored away. These will also be listed in the Garage Sale at clearance prices – help us reduce all this “important stuff” (no it's not “junk”!) that has to be moved – please!!

➡ As August comes to a close we will be preparing for the busy fall seminar and publication season. At the same time we are preparing for the many changes and work of relocating the OIRF offices. With this much activity and confusion going on, we have specifically scheduled holiday time as well as separate time to spend with family. We have returned to our more laid back **summer office hours** of 8:30 AM to 4:30 PM Monday to Thursday (Pacific Time Zone). We will be **closed on Fridays** through until the first of September. You can always reach us by email or call during office hours to speak with us personally. Thank you for your patience and understanding.

➡ The **OIRF 41st Biological Medicine Tour program to Germany!**

This group tour program has been finalized and the itinerary is set. This year we have two feature speakers: **Juliane Sacher, MD** (famous for her research with AIDS and cancer pictured here on the right) will tell us about her latest research into the connections between chronic diseases and increasing vaccinations; **Olaf Kuhnke, MD** will tell us about some classical homeopathic therapies for pain treatment and also about his famous Ortho-Bio-Med Center in Switzerland (pictured below and to the left).

Additionally, there are visits to the exhibits at the **Baden-Baden Medicine Week Congress**, attendance at some Med-Week lectures and several other English language lecture sessions privately arranged for our group. You will experience a busy but highly informative schedule with like-minded companions who share your interest in biological and alternative medicine without the hassles of making personal travel arrangements while in Germany – the hotels are set, our private motor coach awaits us and even many of the excellent

meals have already been planned. All we need now to make this program a success is your early registration.

Follow this link to the [Germany Tour](#) page on our website for itinerary, lecture, registration and activity details. I've given you lots of advance time notice – plan now to join us for this educational (and fun) tour program! Registrations have already been received from Australia, Brazil, Canada, England and the USA.

Register early to ensure space is available and do not miss the opportunity to participate in this popular and educational tour program.

➡ Please see Page 9 of this newsletter issue for details on a **special grant program** that has been established in the name of **Marietta Service**. You are invited to apply for grant assistance for students or new practitioners to assist them in learning about biological and alternative medical methods.

Over the past few years we have noticed a strong trend among the newer practitioners and students to rely on “prolotherapy” and “prescribing”. This rote response to almost all patients by the newer ND's and acupuncturists appears to be leading us further and further away from the true naturopathic and biological medicine approaches that have been so successful for most of our “more experienced” practitioners (I didn't say old so don't be picking on me!). Here is an opportunity for you to recommend a colleague or promising student for some financial assistance to get them started and to give them some exposure to these highly effective methods.

➡ All 2014 issues of “The Bridge” newsletter will be sent to you by email and then published on our website. **Access is open to all**. Follow this link to get your PDF print copy of “The Bridge” Volume 10, Issue #8.

➡ So, here are your newsletter items for this Issue #8 . . .

A Treatment Approach to Allergies Using Pulsed Electromagnetic Field Therapy

By Theodore J. Cole, DO, NMD
(OIRF Medical Advisor)

© Copyright 2012, Dr. Ted Cole, Cincinnati, Ohio, USA

Allergy is one of those topics that generate a great deal of debate. There is even disagreement about basics, such as what allergies are, the mechanisms of allergy reactions, methods of testing, etc. I am not going to address these issues here, as there are volumes of information available. Rather, I am going to present a brief description of a method of therapy I've developed by combining and expanding two separate approaches.

Sensitivity Removal Technique (SRT) is an allergy therapy developed by *Sherri Tenpenney*, DO. SRT itself was developed from NAET and other similar approaches.

The process of SRT is outlined below:

- 1) The patient is checked for switching, which is a disruption in the electromagnetic field of the body. If present, it must be corrected or therapy is postponed.
- 2) On the first visit, the patient is checked for a relative degree of toxicity. If their toxicity score is too high, they must first go through two weeks detox before starting therapy.
- 3) Muscle testing is used to determine which agent(s) a person is reacting to. The first three treatments are typically standard for everyone, covering a wide variety of items. After the third treatment, ferrum met. is used to determine which agent a patient will be treated for on each visit.
- 4) The items that the person reacts to are placed in contact with the patient. In addition, a finger stick blood sample is taken, and is used in every treatment.
- 5) Once these items are in contact with the patient, they are checked for finger positions (mudras), which represent how an area is affected. The patient holds these fingers together throughout the rest of the testing. The positions and indications are:
 - (a) Thumb and first finger touching to form an O: Anatomy
 - (b) Thumb and second finger: Physiology
 - (c) Thumb and third finger: Emotional
 - (d) Thumb and little finger: Circulation
- 6) Next, the organ affected is found by touching the appropriate contact points on the body. The corresponding sarcode is then added to the above items.

In SRT, the next step is treatment using acupressure while in contact with all of the above items. Although this approach has good success, I believe that there are more effective interventions than acupressure for this purpose. In addition, there are items not contained in the usual SRT allergy set that require attention. In response to this, I added a number of items to expand coverage.

I also dropped the use of acupressure and replaced it with Pulsed Electromagnetic Field Therapy using the Medisend Super device produced by Advanced Medical Systems. We use the frequencies of 3.0/300 with an intensity of 3 for 10 minutes per treatment as listed in the Medisend Super III manual. All of the items tested for above are placed in the Medicine Cup during the PEMF session.

Once the treatment is finished, the patient must not eat or drink anything other than purified water from a glass container. In addition, for the second treatment ONLY (the session for chemicals), the person must not touch any items that might expose them to any environmental chemicals.

There are no time limits (other than the three hours) on the frequency of treatments. Most people will need between 15-20 sessions. The sessions are painless and non-invasive, making this an ideal approach for children and the needle phobic.

We have used this approach for less than a year, and don't have firm statistics regarding results. However, a preliminary review is very positive, indicating response rates near or above 90%. I'll continue to follow the results and report at a later time with more definitive numbers. In the meantime, I suggest that you look at more information regarding SRT and PEMF and consider adding them to your list of options for patients.

The Many Uses of Pulsed Electro-Magnetic Field Therapy

By Theodore J. Cole, DO, NMD
(OIRF Medical Advisor)

Dr. Cole can be contacted by e-mail at: tedicole@gmail.com

© Copyright 2014, Dr. Ted Cole, Cincinnati, Ohio, USA

This issue is focused on clinical applications, and my topic is the use of **Pulsed Electromagnetic Field Therapy**. I use the **Medisend Super III** in my practice, and it is in almost continuous use throughout the day.

One of the major uses is for allergy therapy. I have combined the Medisend with **Sensitivity Removal Technique** as outlined by ***Sherri Tenpenney, DO***. Instead of using acupressure, I use PEMF as the treatment. I have also expanded the number of test items used to assess a person's allergies, and have a success rate of over 95% by using this approach. Substituting the PEMF for acupressure increased the success rate by a large margin. Plus, it's painless and ideal for use with children, including infants.

I have also had excellent results using PEMF in the treatment of migraines. It usually takes only one treatment to eliminate these headaches. I have not found this to be a "cure" in most cases, but rather a treatment to alleviate the acute pain from the migraine. Other modalities are usually required to address the underlying causes of the migraines.

Depression is another indication that I have had very good success with. This condition does often require several visits for best results, and in some people has resulted in a long term remission. However, I typically also start Neurotransmitter Therapy in order to address the major underlying disruptions that contribute to depression and other “psychological” issues. In some cases, other problems need to be corrected as well. Using these therapies, I have a success rate of about 100%.

Pain responds very well to PEMF, although again it might take several treatments in order to get a good response. I have had patients with chronic pain lasting for decades have a dramatic decrease in their pain levels with just a few treatments. I also combine other therapies with PEMF, such as Neural Therapy, manipulation, and Neurotransmitter Therapy for maximum results.

One of the most dramatic responses is with patients suffering from electromagnetic disruptions, including geopathic stress. This is where PEMF really shines, as it is a problem in the exact area that PEMF functions. It typically takes only one treatment to reverse these disruptions, which also enables any type of energetic testing to be much more accurate. Although symptoms can vary from person to person, the most common remark by patients is that they can think clearly again and their “brain fog” has lifted after a treatment.

The Medisend unit is also an excellent tool for testing. It can be combined with a computer based set of remedies or used with your own set of test samples. I have to admit that I don't use this feature very much, as it's being constantly used for treatment!

I have just touched on some of the more common conditions that I use PEMF for. The booklet that is provided with the Medisend unit lists many pages of conditions and protocols that can be used to treat these conditions. Because of the basic effect on the electromagnetic system of the body, PEMF can truly be used for any condition a person might present. It has become an irreplaceable unit in my practice, and I encourage everyone to consider adding it to your therapeutic regimen.

Dr. Cole lectured on his experiences with PEMF at a scheduled Symposium within the Medicine Week Congress (2012), and the 39th Biological Medicine Tour to Germany program included a special English language seminar and workshop on the use of these devices.

The additional funding received from a price increase announced by AMS at that time has been applied directly to EC and international certification and registration procedures which have been recently instigated.

Please contact Elaine at 1-800-663-8342 for a current price list and visit our website at www.oirf.com for descriptions and further details.

Practice Application:

**ADVANCED MEDICAL SYSTEMS –
Everything in a single system!
Pulsed Electro-Magnetic Field Therapy**

Medisend Super C: Pulsating magnetic field, regulative medicine, “bio-resonance”, acupuncture, transmission and storage of oscillations.

Medisend Super III: The “luxury liner” model includes everything mentioned above plus many added features including “bio-resonance” and bipolar magnetic output with the use of two directional inductors.

Wave Transfer C: For the transmission and duplication of bio-information in either analog or digital format.

Metronom C: Pocket sized magnetic field device with five programs. Can be “loaded” with bio-information. Ideal for complementary home use.

AMScomsystem: Communication and control platform for the new C-generation of devices – now you can steer “everything in a single system” with this new software. Can be used with all devices designated with the “C”

These devices are all based on the work of **Dr. rer. nat. Wolfgang Ludwig**. Please see the graphic above for a pictorial representation of this phenomenal system.

You can contact **Advanced Medical Systems** directly for full order, pricing and delivery information on their website at: www.magnetotherapy.de/
Mention OIRF with your order to receive a small discount (±3%).

Practice Application:

- Standard EAV or MORA Optima assessment capabilities of the **Nova® MED Professional**.
- Full EAV assessment software incorporated into Nova® MED Professional for fast accurate testing and assessment using actual or electronic test sets.
- Optional “Tooth Testing” module for standard currents in the mouth, as well as assessment of dental foci.
- Cancer and Mitochondropathy Electronic Test Sets according to the research of **Dr. Gottfried Cornelissen** for cancer assessment and application.
- Or, VEGA-type testing capability has been incorporated into the MORA-Nova to allow utilization of available Electronic Test Sets – or of the coveted actual VEGA test set vials.
- For those who already have other testing and diagnostic methods in place, or for beginning BioResonance practitioners, the recently introduced **Nova® MED Basic** offers a less costly device with “therapy only” applications.
- **BioResonance Therapy Applications:**
 - Assistance with detoxification and intolerance.
 - Highly effective therapy for allergic and intolerance responses.
 - Building immune system.
 - Delivery of medication information.
 - Follow this link for [MORA BioResonance details](#).
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

🔄 Of the three full “home-study” or “extension training” programs developed by Occidental Institute, two have been fully updated and are available in PDF format on disc. Research and publication of each of those programs has been pivotal in the development and application of Acupuncture and Biological Medicine in North America and around the world. Be sure to obtain your copies of these famous and well respected volumes for your library and study purposes.

- Modern & Traditional Acupuncture: \$165
- Master of Acupuncture Program: Translations of the ancient acupuncture classics (The Nei Ching consisting of the Su Wen and Ling Shu, as well as the “Difficult Classic” the Nan Ching) are still available in printed format – \$125 Work on scanning and reformatting these materials will progress slowly as time allows during our busy summer and fall seasons.
- EAV Desk Reference Manuals, Parts 1 & 2 – \$200
- Diagnostics and Therapeutics Seminars of Dr. Sturm – \$200

Get more details at <http://www.oirf.com/resources.html>

➡ A fund totaling CDN \$3,000 was recently received from **Marietta Service** to sponsor important OIRF staff travel and expenses. This funding is now being “paid forward” with the establishment of a series of grants available to students and new practitioners to assist them in entering the exciting field of biological and energetic medicine. Grants in the following amounts are now available:

OIRF reference materials:

Five grants of \$150 each

OIRF seminar/workshop video materials:

Five grants of \$150 each

OIRF Germany Tour program:

Three grants of \$500 each (Two are still available at 14.08.2014)

To apply for this funding or make a recommendation for a student or new colleague, please submit (by fax or email) a short application including the following details:

- Application for personal funding Application for a student I know
- Application for a new practitioner/colleague

(Please print clearly in this part!)

My Name _____

Name of Grant Recipient _____

Address _____

City _____ State/Prov. _____ Postal Code _____

Office phone _____ Home phone _____

E-Mail _____ Fax phone _____

Why did you refer this person for a grant? _____

We request the grant funding applied to: _____

Signature (Now you can scrawl) _____

**MAIL TO: OIRF, P.O. Box 100, Penticton, B.C. V2A 6J9, CANADA
OR, FAX TO: (250) 490-3348 OR, EMAIL TO: support@oirf.com**

Videotaped "DIAGNOSTICS" AND "THERAPEUTICS"

Seminar/Workshops by Dr. Walter D. Sturm† of OIRF Staff

Part One on Diagnostics:

- Electronic point measurement
- Medication testing, and more

Part Two on Therapeutics:

- **MORA-Therapy**
- Electronic Homeopathy
- Remedy Information Transfer, and more
- *Optional day on his other therapies!*

Follow this link to see a full description of these videotaped ["Diagnostics and Therapeutics" Seminar/Workshops](#) by Dr. Walter D. Sturm† of the OIRF Staff.

Available on five (5) DVD's plus one (1) CD with all overheads and extensive handouts materials for CDN \$200 (plus shipping).

Published in Canada by: **Occidental Institute Research Foundation**
P. O. Box 100, Penticton, BC V2A 6J9 Canada
Phone: 800-663-8342 or (250) 490-3318
Website: www.oirf.com Email: support@oirf.com

OIRF Resource Materials:

- For more information and instruction about point and medication testing with EAV see the OIRF: [Medication Testing Report](#) and the [EAV Desk Reference Manuals](#) (both available on disc).
- For more information and instruction about [Diagnostic and Therapeutic Techniques in Biological Medicine](#) with emphasis on BioResonance Therapy be sure to order the recently re-released videos of Dr. Walter Sturm's seminars.
- For a complete [listing of OIRF resource materials](#), including publications, reports, books and videos please follow this link to our website. There are full descriptions of all printed and recorded materials online.
- For a complete [listing of OIRF recommended instrumentation](#), including diagnostic, therapeutic and BioResonance devices please follow this link to our website. There are full descriptions of all instrumentation online.

“EXTENSION TRAINING” PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook (*An Outline of Chinese Acupuncture*) and set of four charts (by China Cultural Corp.). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD

Price includes disc with all 33 Lessons, applicable supplementary textbook (*An Outline of Chinese Acupuncture*) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

Occidental Institute Research Foundation

40th Biological Medicine Tour to Germany

Tuesday, October 28 through Monday, November 3, 2014

Theme: Clinical Applications in Biological Medicine

Hear privately arranged English language lectures from:

- **Dr. Juliane Sacher** – Connection between chronic disease & vaccinations
- **Dr. Olaf Kuhnke** – Naturopathic therapy for pain and fibromyalgia
- **Dr. Silvia Binder** – ONDAMED Therapy
- **Dr. Daniel Beilin** – Thermodiagnosics
- **MORA BioResonance Therapy**
- **Ionized Oxygen Therapy**
- New methods of **Dr. Helmut Schimmel**
- Presentation from a German **Biological Medicine Hospital Clinic**

Attend Medicine Week (English) lectures featuring:

- **Dr. Frank Beck** – Magnetized filtered water
- **Dr. Dietrich Klinghardt** – Magnetic Field Therapy
- **Dr. Ulrike Heller** – Cepes Laser

- Our private lectures present the latest information and research in our field, with ample time for questions and hands-on.
- An opportunity to talk with like-minded colleagues and learn from the experience and expertise of attending OIRF Directors and Advisors.
- Visit and participate in the famous Medicine Week Congress in Baden-Baden
- Hear from a well known German pharmacy of biological remedies
- Travel in comfort with plenty of room for luggage
- Tour prices include full tour program, single room accommodations and most meals
- Be treated like family with good food, good friends and good conversation in friendly hotels

ADVANCE REGISTRATION IS RECOMMENDED

[Biological Medicine Tour #41](#) information and [Register here](#)

For more details contact: Occidental Institute, www.oirf.com; E-Mail: support@oirf.com

PO Box 100, Penticton, BC V2A 6J9 Canada and register at 800-663-8342 or (250) 490-3318

➡ It has been awhile since I reminded everyone about the mission and focus of Occidental Institute. Instead of my usual plea for donations and support from you – our colleagues, supporters and friends – I decided in this Issue to reiterate some of the policies and philosophy that form the foundation of OIRF.

Mission Statement

Occidental Institute Research Foundation functions as an information and technology bridge linking top German practitioners and suppliers involved in aspects of German Biological Medicine with progressive English-speaking practitioners around the world.

"Biological Medicine" – a phrase coined by Occidental Institute during the early 1980's – was intended to be a general and inclusive term that incorporated many non-allopathic or natural diagnostic and therapeutic methods. There is no single product, personality, method or approach within Biological Medicine that will allow you to help all of your patients, with all of their health challenges, all of the time. It is for this reason that we see a constantly changing and developing range of methods coming available to practitioners worldwide.

By providing newsletters, exclusive books and publications, educational materials, hands-on seminars and workshops, video/DVD training, instrumentation recommendations and yearly clinic and lecture tours to Germany, OIRF promotes the growth of German Biological Medicine throughout North America, and in many other English speaking countries.

OIRF is a nonprofit society supported solely by our internal fund raising activities. As an independent research organization we are constantly seeking and evaluating new approaches to health care for our affiliated colleagues and supporters.

OIRF Instrumentation Policy

Occidental Institute Research Foundation is a **non-profit research organization**. The instrumentation recommendations of this organization are based on thorough testing to determine efficacy, quality, pricing, availability, service and support. **All instrumentation is sold to you at or below German factory (export) prices** to assist our Affiliates in obtaining the best product for their needs at the best possible price. Longtime Affiliates consider OIRF as the "Consumer Reports" of German Biological Medicine. Training and educational materials on all currently recommended instrumentation are available through OIRF.

As a non-profit research organization, we are here to educate and inform our research associates (members), and to make instrumentation recommendations based on our years of research. Then, as a fund raising activity, we can assist you with a purchase that will work best in your practice for the most reasonable price.

Quite simply put, we here at Occidental Institute are dedicated to providing you with the best information and the most practical and effective applications of Biological Medicine for use in your daily practice. We endeavor to offer you personal, friendly and efficient service and assistance. Our sterling reputation in this field has been built over our forty-two years of experience and research. Your support is greatly appreciated and respected.

➡ **Encore publications:** During our “lazy” summer days and weeks it has been an interesting journey for me to look back at the many publications, articles and reports that were prepared by Dr. Walter Sturm. Once again I was awed by the scope, quality and depth of information that he seemed able to bring together in a cohesive and easily understandable format. In our ongoing efforts to bring all of this amazing information into “modern” formats and accessibility, I worked on five different reports that are now available in digital (PDF) format (and we can recycle all this old stored printed paper!). Support your Institute and add these excellent reports to your own personal library of information.

- 1) **Transliterations of the Chinese Acupuncture Point Names with Explanations.** This is a supplement to the Modern & Traditional Acupuncture Program. Every single traditional acupuncture point is shown with the point name transliteration (with both new and old – Pinyin and Wade Giles – spellings) along with a full explanation. Translated by **Michael C. Barnett, DAcu, LAc** from the work and research of **Jean-Claude Darras, MD**.
35 Pages (free to all M&TSA program subscribers) \$25
- 2) **Report on LM Potencies.** Translated and prepared by **Dr. Walter D. Sturm** based on the work of **Dr. Samuel Hahnemann**. This is pivotal information for all homeopaths. In the last years of his life Dr. Hahnemann turned solely to the use of LM potencies for his patients instead of the “usual” C and X potencies still utilized today. This knowledge was suppressed for nearly 80 years and revolutionized the practice of homeopathy when that famous 6th edition of his Organon of Medicine was finally published. Read the story and see the meticulous research and translation left us by Dr. Sturm
51 Pages \$40
- 3) **The Problem of A and Inverted A in Homeopathic Nosodes.** Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Advanced BioResonance information.
4 Pages (only) \$ 5
- 4) **A Critical Examination of Current EAV-Diagnosis, the Mebe-Ampule and Filter Procedure.** Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Digital single oint mwasurement according to Dr. Cornelissen. Advanced BioResonance and EAV-Diagnostic information.
14 Pages \$10
- 5) **The Genital System.** Translated by Carolyn L. Winsor; revised and edited by **Sean Christian Marshall, DSc** based on the work and research of **Jean-Claude Darras, MD**. Advanced traditional acupuncture information explaining the energetics of the genital system including disorders and treatment.
23 Pages \$25

All items can be ordered through OIRF. Contact the office toll free at 1-800-663-8342 for rapid delivery.

➤ **Conferences and Conventions:** Please watch for announcements of the speakers, venues and details of these exciting OIRF activities and events for the year 2014:

➤ **Biological Medicine Tour #41 to Germany**, October 28-November 3, 2014 (dates for the 48th Baden-Baden Medicine Week Congress have been confirmed). Join us for our **41st** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes private OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits.

➤ Watch for speaker, venue and date details for a series of seminar/workshops focused on practical application of OIRF recommended diagnostic and therapeutic methods.

➤ Follow this link to our website to see Issue #8 in print/PDF format.

➤ **Updates, Reminders and Announcements:**

➤ Follow this link to the [Germany Tour Report](#) to join us and share some of our adventures and activities from our 2013 tour program. Dates for this year's Tour #41 are October 28 through November 3, 2014 (including the Baden-Baden Medicine Week Congress).

➤ Watch for Volume 10, Issue #9 of the "The Bridge" newsletter to arrive in your Inbox around mid-September. Next to be featured will be the article Carolyn promised to translate from one of the German Journals entitled *Color-Energy-Therapy, Energetic principles of Light and Color*. Included are correlations of the colors to Dinshah's color qualities, meridians and the time clock, chakras and balancing points.

➤ Visit our **Facebook** page – will you be our friend?

I trust you have found much of interest in these pages. We look forward to meeting you during our 2014 activities and programs. As always your comments are welcome. Remember that this is your newsletter – your suggestions, article contributions, critiques, FAQ's and compliments – are gratefully accepted.

Yours in health,

Carolyn
