## Linking Practitioners of German Biological Medicine

Volume 13, Issue #2, February 2017

Tuesday, 21 February 2017

Dear Colleagues, Friends and Supporters of OIRF,

### ➔ Welcome to Volume 13, Issue #2 of "The Bridge" newsletter!

Welcome to this second Issue of "The Bridge" for 2017. In these pages you will find another insightful article from Simon Yu, MD entitled "*Enhanced Interrogation Techniques for Parasites by a Theoretical Internist*". Utilizing the Acupuncture Meridian Assessment (AMA) developed by Dr. Yu based on standard EAV methods, Dr. Yu summarizes how to test for parasite infestations in our patients.

Sadly, however this Issue also brings news of the passing of another one of the giants from the era of incredible researchers/practitioners that included Prof. Hartmut Heinet, Prof. Fritz-Albert Popp (retired), Dr. Franz Morell† and Dr. Konrad Werthmann†.

Next month's Issue #3 will introduce you to a "new to us" therapy device that has been successfully used in practice for nearly a decade. We will feature an article concerning application and provide information where you can purchase the device for your practice – at a nice discount! More on that to follow . . .

➔ Note that the 2017 Events Calendar has again expanded and you will find the new listings on Page 24 of this Issue and also on the [Events Page](#) of our website. Watch for announcements of several other conferences and seminars where you will find OIRF in an education or exhibit booth.

➔ **Important Note:** The organizers of the Baden-Baden *Medizinische Woche* have changed the dates of the annual congress due to conflict with a national holiday in Germany. Dates for the 2017 Medicine Week Congress and the **OIRF Germany Tour #44** have been altered accordingly and appear correctly on our website and below.

- Medicine Week: October 28 through November 1, 2017
- OIRF Germany Tour #44: October 26 through November 1, 2017

Remember the article in Volume 13, Issue #1 (last month) by **Dr. Manfred Doepp** and **Patricia Luning-Klemm** about the rapid exponential increase in the blanket of electromagnetic frequencies in our environment? Well, Dr. Doepp has agreed to speak to the Germany Tour group this year (after a hiatus of nearly 8 years). He's already outlined a very interesting lecture entitled the "*Digital Clinic*". In light of his ongoing exceptional research, this will be an exclusive and major lecture for the tour program.

As well as our keynote speaker Dr. Doepp, here are some of the anticipated special features for Tour #44!

- Clinic Lecture: Integrative Cancer and Lyme Disease specialist – Dr. Friedrich Douwes
- Clinic Lecture: Biological Medicine specialists using multiple modalities – Dr. Uwe Reuter and Dr. Ralf Oettmeier
- Clinic Lecture: Diagnostic and Therapeutic procedures and result, as well as newer therapies such as Laser IV Therapy – Dr. Olaf Kuhnke
- Pharmacy Lecture: RNA Therapy – Dr. Georg Stommel and Dr. Siddhartha Popat
- ALFA THERMODIAGNOSTICS – Dr. Dan Beilin
- ONDAMED – Dr. Silvia Binder
- THERAGEM – Catharina Jansma
- Med-Tronik: BioResonance Therapy and Diagnostics – Dr. Nuno Ruivo and Dr. Peter Mahr
- Advanced Medical Systems (AMS): Pulsed Electromagnetic Field Therapy – Dr. Frank Beck
- Evening lectures, training sessions and discussions with attending OIRF directors and advisors

Note: Some of the above lectures are sponsored English language lectures that are part of the Medicine Week Congress program itself. The OIRF group has been invited to attend.

➡ OIRF is still in the process of updating and revising our website – this is a big project at the end of each year to make sure we are up to date and that the site is running smoothly. We ask your patience should you experience any glitches or disruptions – and if you see any little slipups or mistakes please let us know so that we can get them all fixed up.

➡ Note that OIRF is now able to accept your credit card payment directly in either USA or Canadian dollars and all pricing is being adjusted to reflect both currencies. Thank you for your understanding.

➡ **Advance Notices** (see details Pages 24-26):

➤ **Dr. Simon Yu** of **Prevention and Healing** in St. Louis, Missouri is planning two more hands-on AMA (EAV) workshops for MD's during March and June 2017. Also, his colleague Mr. Lodholz has agreed to assist with arrangements for "just one more" international conference. Dates for this always exceptional and highly recommended conference are **Sept. 29 to Oct. 1, 2017**. OIRF will be there! Plan now to attend.

➤ **Dr. Michael Gurevich** has announced the **International Neural Therapy Conference** to be held in **Ottawa, Ontario Canada May 11-13, 2017**. The excellent roster of speakers includes: **Dr. Hans Borop** (Germany), **Dr. Alberto Duque** (Colombia), **Dr. Mark McClure** (USA), **Dr. James Oschman** (USA), **Dr. Michael Gurevich** (USA) and many others. This is a highly recommended conference!

👉 Well he's done it again! Those of us attending at Medicine Week eagerly headed downstairs to the exhibit featuring **Dieter Jossner** (of BioPhoton Therapy fame!) and **Medical Electronics**. This is always a "trip", and every year Dieter has a new "toy" or device to show us.

You've been listening to me talk about and seen the full information on the **UBS 315** device. These interesting little devices have been "selling like hotcakes" – really they definitely have – and we find that once you've tried it, you want more of them. This small piece of innovative technology will revitalize regular water. It's not a filter, but the change in the quality of the water is immediately apparent and you can even taste the difference. So, here's the link to the English information about the [Ultra-compact Bioenergetic Stimulator UBS 315](#) and you can see brief info and pricing on Page 13 of this Issue. Order today for mid-February delivery – get yours on your desk as soon as possible!

But the new "toy" for 2017? Well, take that same BioPhoton technology (both white light for during the day and red light for evening and bedtime) and put it into a set of "goggles". As of our earlier phone conversations with Mr. Jossner, they cannot manufacture these "puppies" fast enough for demand.

Preliminary indications include improved sleep (red light enhancing melatonin production), improved eyesight, enhanced daytime energy, and . . . Eyes open or closed during application doesn't matter, because this is not a laser.

I still don't have English information or instructions available for this device, but these are apparently in the works and should be ready "soon". Tour participants and others aware of this new product are invited to order theirs now. We don't have a clear picture of shipping costs at this time (estimated UPS shipping could run as high as \$150 US), but orders will be shipped by postal mail to reduce costs and ease customs clearance procedures.

Ready to place your order now? Retail is US \$855 and CDN \$1,150 plus shipping and import. OIRF and Mr. Jossner will expedite your orders immediately.

👉 I invite all of you to maintain your email or print subscription to "The Bridge" newsletter. All 2017 issues of "The Bridge" will be sent to you by email and then published on our website. **Access is open to all**. Follow this link to get your PDF print copy of "The Bridge" Volume 13, Issue #2.

Further new and cutting edge articles from our prestigious Board of Advisors and Directors as well as more of Carolyn's translations of articles from current German journals are underway for future (lucky) Volume #13 issues of this newsletter. Issue #3 featuring an introduction to a device using gem therapy should reach your Inbox around mid-March 2017.

## Enhanced Interrogation Technique for Parasites by a Theoretical Internist:

“Pop” goes the Universe, Paradigm Shifting  
to Non-Emprical Science.

By Simon Yu, MD

© Copyright 2017, Dr. Simon Yu, Missouri USA

Parasites are masters of deception. They are directly engaged in a deceptive, asymmetric biological and psychological warfare on mankind. Curing the “incurables” by using parasite medications after I was deployed in Bolivia as a US Army medical officer, has been the most rewarding experience in my medical career, both as a medical officer and an Internal Medicine doctor. My experiences turned into my book, *Accidental Cure*.

However, the dramatic improvements I saw, although frequent, appeared random and not everybody responded as I expected. After a while, after parasite medication treatment, I couldn’t detect parasite activities by acupuncture meridian assessment (AMA). However, many patients would still complain of feeling parasite movement in their bodies or a bizarre multitude of symptoms.

This led me into the world of quantum physics, bio-physics and energy medicine, searching for the invisible, immeasurable parasites, the masters of deception. One of my first attempts was using color light therapy to unmask the hidden parasites. I wrote on this subject, “Color me Blue. Color me Red”, and also published results of a color therapy experiment using Ramen spectroscopy, in the Biophotonics Journal in March 2011.

Later, I used acupuncture at different points and also Battlefield Auricular Acupuncture, developed by radiologist and acupuncturist, Air Force Colonel Richard Niemtzw. I called this technique, “Enhanced Interrogation Technique for Parasites”. Sometimes, one “pop” at the right acupuncture point and all of a sudden, I could see parasite activities I couldn’t see a few minutes earlier. An occasional “pop” seems to open a new dimension of the Universe.

This random occurrence took me to the Scientific American, February 2017, topic on Cosmology, “POP goes the Universe” which challenges the current Big Bang Theory. The latest astrophysical measurements, combined with theoretical problems, cast doubt on the long-cherished inflationary theory of the early cosmos and suggests we need new ideas.

Theoretical physicists from Princeton and Harvard University, Ijjas, Steinhardt and Loeb were discussing that Big Bang inflationary energy is purely a hypothetical theory. There is no direct evidence that it exists.

At the end of the discussion, the conclusions were the “Big Bang” was actually a “big bounce”. However there is currently zero evidence to say whether the event that occurred 13.7 billion years ago was a big bang or a big bounce. The science must change by discarding one of the defining properties: empirical testability (and reproducibility).

Their honest discussions conclude that a common misconception is that experiments can be used to “falsify a theory”. And, we need to accept the paradigm shift on non-empirical science-quantum fluctuations of random variations and random warps in space that propagate as waves of spatial distortion. What does that mean? I suppose it means anything is possible in the quantum world we live in.

I have addressed the conundrum of difficulty detecting and treating parasites in the context of the Big Bang theory in my previous two articles, *The Big Whack Theory*, and *Disappearance of the Universe as We Know It for WIMPs*. **Roger Penrose** from Oxford University explained the short coming of the Big Bang theory. He describes elegantly the cosmos was merely a series of such bangs. I call it little bang bang theory with a lot of string theories attached as a new reality.

On the other hand, have you heard of a Big Texan theory? I was driving thru Amarillo, Texas recently and stopped by for dinner at the Big Texan restaurant. If you can eat a 72 oz. steak in 60 minutes, you can eat for free at the restaurant. Most big Texans struggle to eat a 72 oz. steak in 60 minutes. The record indicated though that an 11 year old boy and a 120 lb. lady each devoured a 72 oz. steak in a few minutes. How can you explain the improbable except as a random quantum biological variation? I didn't try to eat the steak.

Since my experience in Bolivia in 2001 as a US Army medical officer treating Andes Indians with parasite medications, I've written many articles on parasites and why medical professionals are overlooking this global environmental medical epidemic. Detecting parasites based on stool ova, immuno-assays, or DNA testing are notoriously unreliable.

If we cannot measure or detect parasites, we cannot treat parasites. Therefore I suggest one allows oneself to be open to the paradigm shifting, non-empirical science of acupuncture meridian assessment (AMA) and using the parasite interrogation technique. By default, I became a theoretical Internist and treat parasites based on the statistical probability of random quantum variations of individual patients and AMA. For more details, check out my acupuncture meridian assessment (AMA) articles on my website (reference below).

Parasites are evolving and hiding in our toxic environment at a faster rate than we can adapt. When we don't know why people are suffering from chronic illness, we often blame genetics, Lymes, viruses, mold and environmental toxins, or GMO foods as our favorite target to blame.

However, how about the problems that seem impossible to measure reliably, like parasites or dental problems beyond the detectable level of X-ray? Shall we rely on a medical medium, Shaman, or psychic reader to diagnose when MRI or PET scan failed to diagnosis? Some patients do that out of desperation.

When you put an acupuncture needle at the right place, there is a dramatic shift in energy fields and you can see and measure hidden problems that you could not see a few minutes before. It is like a "Big Pop" and suddenly the hidden energy shields are opening up. Call it Enhanced Interrogation Technique.

Some of the examples were described in previous articles such as *Professional Patient Named Bob*. For medical professionals who are interested in learning acupuncture meridian assessment (AMA) and enhanced parasites interrogation technique, check my AMA training schedule on my website under "Special Training". This training is limited to MD's, DO's and DDS's.

## IN MEMORIAM

When you came into the world, you cried, and everybody around you was glad.  
You lived in such a way that when you exit the world everybody cries and you alone smile.  
In great love and deep gratitude we say goodbye to

### Dr.med.univ. Ivan Engler, PhD

A leader in physicians' research for natural healing methods  
Assoc. Prof. in the Institute of Physiology, Faculty of Medicine, P.J. Šafárik, University of Košice  
Who has gone from us in his 86th year on 30 January 2017 after a short very severe illness.

The celebratory urn farewell and afterwards the funeral takes place on  
Thursday 16th of March 2017, at 2 PM beginning  
in the funeral rooms of the municipal cemetery of Salzburg.

In the name of the family, all relatives and friends.

Some of the many accomplishments of Prof. Engler:

#### **Assoc. Professor Ivan Engler, MD, PhD, HP**

##### **Curriculum Vitae included:**

Doctor of Medicine, Košice Slovakia and  
University of Vienna Austria  
Trauma and accident physician  
Austrian Army Captain UNO  
Chief Surgeon in Rehabilitation at Austrian  
Veterans Hospital  
Natural Healing training in Germany, China,  
Taiwan and India

Private practice in Salzburg, Austria specializing  
in oxygen therapies.

##### **Awards included:**

UNO Medal for Peace

##### **Accomplishments:**

Founded "Inhaled Ionized Oxygen Therapy" –  
IO<sub>2</sub>Th/Engler  
Numerous lectures for OIRF, Universities in  
Germany, Austria, Slovakia and published over  
80 papers and monographs, as well as one book.

During a time of grief it always seems so strange to try and reduce the accomplishments of a lifetime into a few paragraphs. Looking back I am so very thankful that Dr. Engler willingly and energetically joined our group in Germany this past October. Once again he shared his knowledge and his incredible experience with all of us who were a part of that group (seen here speaking to the Tour #43 group, Oct. 2017).

When I initially met him I was more than a little overwhelmed by his intelligence and research. But the literal twinkle in his eye and a quick bit of humor quickly led to a decades-long friendship.

Personally, I will miss my dear friend Ivan and find it hard to believe that he is gone so quickly. But as a colleague, physician, researcher, author and healer the loss to our community of Complementary and Biological Medicine is immense and once again represents the passing of an era.

We send heartfelt sympathy to the family, relatives and friends of Prof. Dr. Ivan Engler. Be at peace my dear friend.

### **February 2017**

As I've thought about and grieved the loss of Prof. Dr. Ivan Engler in recent days, I once again became retrospective about the changes in this marvelous field of complementary medicine that we share.

As I watched the Grammy's the other night I was engrossed by the beautiful music of John Legend while they presented the names of those we lost over the past year. Typical stuff in so many ways.

But then they mentioned Pete Fountain. From within my era, training and love of music I enjoyed and loved the instrumental and rock-and-roll of the late 60s and early 70s. Artists like Boots Randolph, Floyd Cramer and Chet Atkins left us a legacy of fun but good music that warmed the soul and let us dance. My surprise at remembering the passing of Pete Fountain who was a member of that same group came from the realization that all of these great musicians (and likewise so many others) are irrevocably gone. The same can of course be said about other greats like Michael Jackson, Prince and David Bowie. But for me, that era and genre of music from 'my youth' is now the past and it's once again time to look to what is happening in the field today and where it will take us into the future.

Such ruminations led me back to New Years pep talks and business outlooks and bold looks at the future of complementary medicine. But I really couldn't have said it much better than my editorial "rant" from last July's Volume 12, Issue #7 of "The Bridge". I repeat it here today as a reminder that it is time for all of us to pick up the challenge. **And I dare you!** It is time for each and every one of us to be involved in ongoing study, research and application of the various forms of Complementary and Biological Medicine available to us today. **We** will create the future.

#### **Revised From "The Bridge", Volume 12, Issue #7, July 2017**

There are times when we all sit back and wonder about the future and about what we will be doing in 5 or 10 or more years. It's just a natural response when we think about family, or consider what's happening in our practice today, or when we are making a business plan for next year, or . . . As many of us who have pioneered and worked in this amazing field of Biological Medicine start to – dare I say it – age gracefully, thoughts of the future and how this form of medicine will transform in the coming years become foremost as we move forward.

At other times, it is a matter of looking back and pondering the innovation and sheer invention of the great ones from our past like Dr. Samuel Hahnemann, Dr. Reinhold Voll, Dr. Fritz Kramer, Dr. Helmut Schimmel, Dr. Franz Morell and so many, many others. For example, homeopathy is more than 250 years old while Occidental Institute *will celebrate 45 years in continuous business during July 2017* (OMG, how did that happen?!).

Many of us have experienced and benefitted from their imaginative development of point and medication testing and BioResonance Therapy. But how will these methods take us into the future? By now we all know the story of **Polaroid**, and how with the implementation of digital cameras that largest supplier of photographic film went bankrupt in a matter of a few years. And yet, are we taking that purely business lesson into consideration in our modern Biological Medicine practice?

"The secret of change is to focus all of your energy, not on fighting the old, but on building the new." Socrates

I read with interest the article by **Dr. Ronald Klatz** of A4M fame regarding "*Predictions in Technology and Health*" (<http://www.worldhealth.net/news/predictions-technology-health/>) posted June 6, 2016. This is a nicely laid out article that is certainly thought provoking on many different levels.

But now it's time to apply some of those predictions in our own practices if we are to remain modern, innovative and prepared for the future of **information, energy and biological medicine**. And for me these three terms tie the concept into a viable focus to move forward. Afterall, we are working with information – no matter whether we are talking about homeopathy, BioResonance, BioPhotons, PEMF or whatever, we are not only measuring the information of the body but are then utilizing energy and other biological methods to deliver that healing information back to the body.

Think about it for a minute. *In July 2016* the Juno probe reached Jupiter after traveling for 5 years. If a human was to attempt such a journey (yeah, I know Star Trek fan that I am) how will they take care of their medical needs? There is no possible way to pack a whole pharmacy, doctor's office and hospital into the long distance spacecraft. All such aspects would need to be self sufficient and self regenerating – wouldn't they?

Just like with Polaroid we have examples of their scenario of obsolescence playing out in Europe with the large homeopathic companies. I remember visiting the **Staufen Pharma** (Müller Göppingen) Company with our tour groups many years ago. It was a huge plant and I would estimate they had over 500 employees. Homeopathy was at a peak of acceptance and application throughout Europe and many other countries around the world. Well, Staufen closed its doors *during mid-2015*. That's right. It's just gone. No more nosodes, no more specialty homeopathics, no more anything for which they were a leading well respected business and alternate pharmaceutical company. Just gone.

I see two factors in the demise of Staufen:

- 1) All the controversy and regulation with CODEX in Europe and around the world. There was just too much regulation, too much restriction and too many attempts to over-generalize the production of these remedies into an internationally acceptable format.
- 2) Electronic "recording" of remedy **information**.

And there is that word again. All of those cabinets and shelves and cupboards of stored homeopathic ampules and test sets from the days of Dr. Voll, Dr. Kramer and Dr. Sturm\* have simply become obsolete. With 21<sup>st</sup> Century technical "recording" capabilities they have all been replaced with a single DVD and your laptop or iPad. Homeopathic (and all) remedy information is now available in a digital format. Where will it take us next? I think this would fit on that future spacecraft on the way to Jupiter, don't you? And now – without all the hassles of importation and government regulation – every practitioner worldwide can have access to 10's of thousands of remedies not only for diagnostic purposes but also for therapeutic application.

It is time for all of us to look at and think about the possibilities for our practices in terms of how information, technology and energy will affect them in the coming months and years. Please don't misunderstand me on this however, as I go back to other rants (oh sorry – other editorials) that I have published. As important as the future is to how we proceed in our current everyday practice we must remember that the future is built on and developed from the past.

“The future is an unknown, but a somewhat predictable unknown. To look to the future we must first look back upon the past. That is where the seeds of the future were planted. I never think of the future. It comes soon enough.” Albert Einstein.

It is a tribute to the genius of practitioners and researchers such as **Dr. Voll, Dr. Morell, Dr. Popp, Prof Heine, Dr. Schimmel** and now also **Prof. Engler** that we are already utilizing information and energy to assess and treat our patients. But it is the developments and changes that we are witnessing today in such companies as Med-Tronik that will bring these venerable “old” methods into this era of digital and information medicine. We need to pay attention to these changes.

Going back to my premise of the spacecraft with humans aboard, it is easy, space saving and economical to incorporate the four major methods recommended by OIRF into that journey (the Russians did some of this in their space program long ago), or into your practice for that matter, to create a sustainable and renewable Biological Medicine practice. And it's all energy and information under the umbrella that OIRF has called Biological Medicine since 1982. Here are the four recommendations outlined in one of my previous rants (er – editorials):

- 1) **Inhaled Ionized Oxygen** – Provides pure energy to the body without the need for processing. Gives the body the energy to heal.
- 2) **BioPhoton Light Therapy** – Information is transferred inter- and intra-cellularly by photons. This is your communication pathway for the information.
- 3) **MORA® BioResonance Therapy** – Assessing the body's situation through point and medication testing (EAV, Vega, Cornelissen, etc.); while therapy measures the energy and information of the body, processes it (via amplification, filtration, inversion, etc.) and sends it back to the patient to promote self healing.
- 4) **Pulsed ElectroMagnetic Field Therapy** – To reassert and stabilize the body's response to the earth's natural magnetic field.

In considering the efficacy of our practice and its viability into the future, it all comes back to what we are each prepared to invest in and to utilize. First must be knowledge through education which will always enrich us and can never be taken away from us. Then we have to look at the “tools of our trade”. Which methods or devices will work best for the most reasonable price for the majority of our patients? Times are changing as they always seem to do, but it is how we respond to that change that will predict our patient care and effectiveness into the future.

“The future is now. Roll up your sleeves and let your passion flow.  
The country we carry in our hearts is waiting.” Bruce Springsteen.

In closing, I found a bunch of different sites when I Googled “future predictions”. To say the least, it was interesting and thought provoking reading. Here’s a couple that I found:

**FutureForAll.Org**

Long list of predictions under Biotech/Medicine (plus multiple other topics) included:

Extended Life

Organ replacement

Designer bodies

Personalized drugs

Human cloning

Virtual/Robot medicine

Age reversal

A capsule that can be swallowed which will cure most diseases

And so on . . .

**FutureTimeline.net** (very interesting site)

Many predictions outlined within a yearly-based timeline. Some really cool stuff!

Yours in health,

	<p><b>UBS 315 with sensor for NSA 07</b> (This part shown with the <b>UBS 315</b> unit <b>is not part of the basic supply</b> – added optional accessory) This transfer module is used to transfer signals generated by the NSA 07 unit. The module consists of a sensor for those signals which are emitted by the NSA 07 unit. These are then changed into audio signals enabling the modulation of the UBS 315 unit. Large volumes (a whole room) can therefore be energetically created with the frequency spectrum produced by the NSA 07 unit. <b>PRICE:</b> US \$335 / CDN \$435 (plus shipping)</p>

**NEW! + UNIQUE . . .**

## **MEDISEND® protect**

**The smallest magnetic field device in the world . . .**

**Provides for your personal “shield” against electrosmog everywhere.**

**MEDISEND® protect** – it looks like a memory stick and is the world’s smallest magnetic field device.

- It is operated via any USB port on your PC/Mac/laptop
- Generates a natural and complex electromagnetic field of 7.8 Hz, the fundamental of the Schumann-frequency spectrum. Uniquely, in contrast to all other magnetic field devices, **MEDISEND® protect** also generates the geomagnetic-frequency spectrum!
- The Schumann-frequency spectrum of 7.8 Hz is modulated with a frequency of 1.2 Ha. This frequency has also proved to be highly effective against electrosmog (particularly cell phone radiation).
- The effective range of the **MEDISEND® protect** is approximately 40 cm (80 cm in diameter). There are no time stipulations for its use. Make it easy for yourself: When working on your PC, Mac or laptop, simply plug your **MEDISEND® protect** into a free USB port.
- Only current is drawn via the USB port; therefore no problems whatsoever are encountered with other user programs on your PC, Mac or laptop.

**Electrosmog disrupts our endogenous “bio-currents”!**

**Therefore don’t wait until your organism reacts sensitively to electrosmog. Seize the initiative promptly with **MEDISEND® protect**!**

**Unique in the world!**  
Look out for the arrows symbol!

Only the magnetic field instruments developed by W. Ludwig of the Institute for Biophysics in Tauberbischofsheim (Germany) generate the electromagnetic biofield which is a copy of the one in undisturbed nature and in the correct relation (YIN-YANG equilibrium).

The frequency spectrum of the 64 essential trace elements is generated by a unique world-wide process.

**MEDISEND® protect** – specifically encourage your regulation capability!

## Function – Application

Electromagnetic waves play a fundamental role in all living things. This is because they control and regulate the endogenous “bio-currents”. Communication in the individual cells, between the cells, and from the brain, muscles and organs is founded on tiny electromagnetic pulses. If these “bio-currents” are constantly disrupted from the outside by electrosmog, the “electrical mechanisms of our organism” can be thrown out of sync. Biologically sensitive control circuits are subjected to increasing strain and disruption.

Modern workstations are packed full of electrosmog sources. You sit between the computer, laptop, fax machine, telephone, and photocopier/printer, you have to be constantly contactable, carry a headset, a cell phone and a beeper, work under fluorescent lights, use energy-saving light bulbs, nearby is a cell phone tower, UMTS, WLAN and Bluetooth ensure high-speed data transfer – with a flat rate you are permanently online. Children – teenagers in particular – often sit for hours on end in front of their computers, at the same time chatting on their cell phones or a cordless phone, and listening to music through their earphones . . . In the long run more and more people experience sensitive reactions to electrosmog. This is referred to in colloquial terms as “electrosmog sensitivity”. Permanent electrosmog radiation can cause different individual sensitivity disorders. We therefore advise:

## Listen to your inner workings – listen to your “inner doctor”!

Observe for yourself how you react to electrosmog . . . biorhythm, hormone balance, immune system . . . insomnia, exhaustion, headaches, tenseness, and reduced productivity can be the first serious symptoms of increasing electrosensitivity.

Protect yourself and your family members against electrosmog! Specifically encourage your won regulation capability and the regulation capability of your loved ones . . . By stimulating, stabilizing and harmonizing the autonomic nervous system, you improve your capacity to concentrate and maintain attention, you gain energy, wellbeing and vitality, and you activate and boost your self-healing forces.

## Harmonic oscillations stimulate self-regulation!

Unlike all other standard devices on the market, **MEDISEND® protect** generates two harmonics:

- **Schumann-frequency spectrum** of 7.8 Hz (main inherent value of the Earth’s surface / ionosphere resonant system = YANG signal), which is superimposed by 1.2 Hz.
- **Geomagnetic-frequency spectrum** (modulation of the Earth’s magnetic field by the natural frequencies of the 64 trace elements = YIN signal)

## MORA<sup>®</sup> NOVA

Vibrations that will change your life!

The MORA<sup>®</sup> BioResonance Method with reliable 2-channel technology

Stimulates self-healing powers and  
thus removes disturbances and blockages.

Target group: Physicians, alternative practitioners,  
therapists and naturopaths.

### TREATMENT

For diagnosis or therapy with MORA<sup>®</sup> NOVA, the patient is connected through hand, foot and head electrodes. The patient's vibrations are sent to the device through the electrodes. Depending on the symptoms and treatment program, the vibrations are converted by MORA<sup>®</sup> NOVA into corresponding therapy frequency patterns and returned to the patient through the output electrodes.

### BENEFITS FOR USERS

Today the bio-resonance therapy as an energetic diagnosis and therapy method cannot be wished away from holistic complementary medicine. MORA<sup>®</sup> NOVA offers many options that can cover various therapy fields. It gives you a reliable diagnosis and therapy. The body is thereby supported to regulate itself. Your patients experience a side effect-free therapy, which achieves astounding results for many symptoms and diseases. Often the bio-resonance therapy is helpful in cases where traditional medicine was not adequate.

### **BENEFITS FOR PATIENTS**

- ◆ Often the patient feels an improvement just after the first treatment
- ◆ Therapy is often perceived as very comfortable
- ◆ Treatment is free of side effects and is not at all stressful
- ◆ Short treatment duration (between 5 and 30 minutes)

### **The MORA® System offers many remarkable possibilities!**

#### **MORA®-Diagnostics**

The MORA®-Diagnosis and MORA®-Therapy are state of the art medical technology. They use the latest insight of modern biophysics and are scientifically researched and verifiable. The MORA® device has many diagnostic and therapeutic options.

#### **MORA®-Therapy**

For 35+ years, the MORA® bio-resonance therapy has been used successfully around the world. This therapy form makes it possible not only to diagnose unhealthy oscillations but also to treat them.

The electromagnetic oscillations are

- ◆ picked up in the patient's body
- ◆ transmitted to the MORA® device
- ◆ inverted by means of electronic amplifiers, and
- ◆ returned to the body

The aim:

To activate the body's self-healing power and to remove disruptions and blockages. The patient's balance is to be restored.

#### **Treatment**

Experience has shown that patients find the treatment very pleasant. While the electrodes are being put into place, the patient can relax. The therapy lasts between 5 and 30 minutes. Many patients even experience an improvement after the first treatment.

#### **Side Effects**

The patients experience a therapy free from side effects. The practice is not stressful at all. It can be used attendant to any pathology and permits combination with many therapeutic methods. In many diseases astonishing results are achieved.

### **GUARANTEED QUALITY**

Constant high quality – that is the primary goal. Only then we can satisfy our customers on long-term basis. After all we are dealing with health here. Therefore the continuous improvement of the internal quality management has a very special focus. Due to this reason all MORA®-Products are manufactured only in Germany. All the working steps – from development to material selection to precision manufacturing – are tightly monitored and controlled. The high quality requirement is documented through following independent audits and certifications.

### OIRF Special Reports:

- 1) **Report on LM Potencies** (Homeopathy). Translated and prepared by **Dr. Walter D. Sturm** based on the work of **Dr. Samuel Hahnemann**. This is pivotal information for all homeopaths. In the last years of his life Dr. Hahnemann turned solely to the use of LM potencies for his patients instead of the "usual" C and X potencies still utilized today. This knowledge was suppressed for nearly 80 years and revolutionized the practice of homeopathy when that famous 6th edition of his Organon of Medicine was finally published. Read the story and see the meticulous research and translation left us by Dr. Sturm. See further information on this important report at this link. 51 Pages. \$40

## A Special Report

# The Ground Regulation System (GRS)

By o. Univ.Prof. Dr.rer.nat. med.habil. Hartmut Heine †

A few years after his serious illness in 2011 **Prof. Dr. Hartmut Heine** published a series of seven articles on the **Ground Regulation System**. I [*Carolyn Winsor*] was honored to be able to translate this incredible research into English for the first time and to publish it in our newsletter, "The Bridge".

As I worked my way through translation of the first article, the wealth of knowledge and understanding imparted in even that introductory article left me scrambling for dictionaries, research documents hidden away in the old OIRF library and way beyond "Google searches" to make sure that I was doing justice to the information Prof. Dr. Heine was imparting. Combined with the succeeding six further articles, his gift to us of knowledge and of understanding is truly priceless.

In respect for Prof. Heine I have merged those seven articles into one single report and have republished it separate from that older newsletter. With a total of 48 (mind-blowing) pages, this work is not just "worthwhile" reading, but mandatory reading for all practitioners of orthodox and complementary medicine. Available in electronic or print format for \$30, here is an outline of the contents:

- Part 1** – The Ground Regulation [A History and Background]
- Part 2** – GRS as a non-linear system – Structure, function and determined chaos
- Part 3** – GRS as a non-linear system– Structural components of the extracellular matrix (ECM)
- Part 4** – Spatial structure of the ECM and material transport within the system
- Part 5** – Contact, limitation and clogging up: Cell adhesion, basal membrane and glycosylation
- Part 6** – Functional relations of the ground regulation with the central nervous system
- Part 7** – The Ground Regulation and the Circadian Rhythm
  - The Ground Regulation and Alzheimer Dementia

### **"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE**

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

#### **FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD**

**Price includes** disc with all 33 Lessons, applicable supplementary textbook ([An Outline of Chinese Acupuncture](#)) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). ➡ **Conferences and Conventions:** As an ongoing approach to bring this information and education to a broader range of practitioners, OIRF will sponsor speakers and lecturers in a number of conferences and events throughout the USA, Canada and Germany.

Plans and registrations for OIRF to be present at a number of important international conferences have been arranged, and we are looking forward to an exciting and busy year. It is our hope that you will join us in our efforts to expand the use and knowledge of Biological Medicine in Canada, the USA and around the English speaking world.

Here are **some** of the events where our OIRF Board of Directors and Advisors are giving presentations and participating. Be sure to check out the announcements of events and conferences enclosed and on the [Calendar of Events](#) on our website. Make plans **today** for which events you will attend during the upcoming New Year 2017. Your support for the organizers is greatly appreciated, and gives you the benefit of fascinating, informative and educational programs that will enhance your practice – and CEU's! OIRF directors, advisors and/or members are active in each of the recommended events. See Pages 2, 4 and 24-26 for further details.

➤ **Acupuncture Meridian Assessment Training** for MD, DO and DDS. Primary focus is teaching medical practitioners how to check a few essential acupuncture points to look for disturbances which might be an indication of parasites or dental problems. This training covers many clinical case histories that will amaze you with the healing results that occur where prior numerous doctors and specialists failed to succeed. Class consists of lectures and lots of hands on "boot camp" drills for 2½ days held in **St. Louis, Missouri March 24-26 and June 23-25, 2017**. Sponsored by **Dr. Simon Yu** and also featuring **Dr. Robert Cass, Dr. Doug Cook, Gordon Johnston** and **Carolyn Winsor**. To register contact Kate, Office Manager at 314-432-7802 or [Prevention and Healing](#)

➤ **Dr. Michael Gurevich** has announced the **International Neural Therapy Conference** to be held in **Ottawa, Ontario Canada May 11-13, 2017**. The excellent roster of speakers includes: **Dr. Hans Borop** (Germany), **Dr. Alberto Duque** (Colombia), **Dr. Mark McClure** (USA), **Dr. James Oschman** (USA), **Dr. Michael Gurevich** (USA) and many others. This is a highly recommended conference!

➤ **Advanced Notice:** Dr. Simon Yu's colleague Mr. Richard Lodholz has agreed to assist with arrangements for "just one more" **International Biological Medicine Conference**. Tentative dates for this always exceptional and highly recommended conference are **Sept. 29 to Oct. 1, 2017**. OIRF will be there! Plan even now to attend.

➤ **Mayr Therapy:** This is a method that has been recommended by OIRF for many years. We have sponsored at least six official English language Mayr training programs in the past that featured the direct students of **Dr. F. X. Mayr**, including **Dr. Erich Rauch** and **Dr. Ernst Kojer**. In Austria this training was offered solely to MD's, but with the passing of many of the original practitioner/teachers those

requirements have been somewhat relaxed. It was interesting to see both the two main Mayr organizations well represented at the Medicine Week Congress. Both organizations have been offering English language training and it is my pleasure to re-introduce this method to our members and supporters. Even though there are no commercial or financial ties between OIRF (and none of our Advisor/Directors are directly involved) and these Mayr organizations, we felt it important to continue our recommendation for this well proven and highly effective method.

This year the **VivaMayr** organization in **Maria Wörth, Austria** (oh, such a beautiful area!) is offering two programs in English which feature **Harald Stossier, MD**. Contact Kristen by email at [kristen@viva-mayr.com](mailto:kristen@viva-mayr.com) for details and registration information. Courses available in Maria Wörth are:

- **Basic Intensive Course, I & II: Jan. 15-27, 2017**
- **Advanced Training II: July 23 to Aug. 4, 2017**

➤ **51st Medicine Week Congress**. Revised dates are Oct. 28 through Nov. 1, 2017 in Baden-Baden, Germany with OIRF Advisors, Directors and Germany Tour participants attending. Usually more than 3,000 doctors participate with nearly 200 lectures, workshops and courses (German and English language). Exhibit area with more than 220 exhibits provides you with an excellent insight into the big product offerings in natural healing and complementary medicine. There you can find out directly, and compare. Contact OIRF for attendance possibilities.

➤ **Biological Medicine Tour #44 to Germany, October 26 through November 1, 2017**. Join us for our **44th** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes exclusive OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits. Speaker, event, itinerary and registration details are posted on our website.

To tempt you for next year follow this link to our [report on our 2016 program](#) and activities. Follow this [Germany Tour](#) link to see the unfolding plans and speakers for 2017. This is certainly advance and early announcement of dates and we recommend that you plan early to participate.

➤ **MORA BioResonance Therapeutic Possibilities**, 1 day course on therapeutic applications with **Marguerite Lane, ND**, Australia. 4 DVD set of video recordings are now available through OIRF for US \$150 plus shipping.

➤ Follow this link to our website to see Issue #2 in print/PDF format.

➤ **Updates, Reminders and Announcements:**

- Watch for seminar and conference updates and dates. Plan early which events you will be attending this year.
- Watch for Volume 13, Issue #3 of the "The Bridge" newsletter to arrive in your Inbox around mid-March 2017. There are a number of new and exceptionally well written articles by Med-Tronik researchers and instructors that have been published in the German *CO'Med* and *Naturheilkunde* journals. Carolyn is busily translating as many of them as possible for future newsletter issues. We are looking forward to introducing some of the new devices (a newer model of the RM10 diagnostic device) and methods that were seen in Germany during the recent tour. The March Issue will feature an article introducing therapy method and device using gems.

- Visit our **Facebook** page – will you be our friend?

I trust you have found much of interest in these pages. During 2017 we are looking forward to participating in numerous conferences while supporting various speakers and several complementary organizations. Additionally there are a variety of informational articles being prepared for the next Issues of Volume 13 of "The Bridge". Electronic publication with access open to all will continue throughout 2017 and we will continue bringing you that cutting edge information for which OIRF is famous.

We look forward to meeting you during our forthcoming 2017 activities and programs. As always your comments are welcome. Remember that this is your newsletter. Your suggestions, article contributions, critiques, FAQ's and compliments are gratefully accepted.

Yours in health,

*Carolyn*
