THE BRIDGE

Linking Practitioners of German Biological Medicine

Volume 12, Issue #3, March 2016

Monday, 28 March 2016

Dear Colleagues, Friends and Supporters of OIRF,

👉 Welcome to Volume 12, Issue #3 of "The Bridge" newsletter for 2016!

Although reaching you a little late (again) this month, here is the Issue #3 newsletter featuring the annual article contribution from our OIRF Medical Advisor and Director, **Marguerite Lane, ND** (Australia) entitled "*The Power and Flexibility of MORA BioResonance, 3 Client Cases*". Marguerite will be joining us as our Medical Advisor for the forthcoming **43rd Biological Medicine Group Tour to Germany** this fall which gives you an opportunity to talk and discuss your questions with her personally.

Here also is an introduction to our most recent new Medical Advisor, **Daniel Beilin, OMD, LAc**. Beyond being a longtime supporter and member of OIRF, Dr. Beilin is an internationally recognized expert for Regulation Thermography with decades of research and development behind the AlfaThermodiagnostic device that is now registered with the US FDA. Some introductory information is included here and details regarding the device will be published on our OIRF website shortly. Watch for Dan's article on Regulation Thermography in our September, Issue #9 of this newsletter.

Here also is a brief explanation of the meaning of the segment (or quadrant) measurements of the MORA Super and MORA Nova. Thanks go out to our European Board of Advisors member **Nuno Ruivo, DO** for this contribution.

And although many times I watch the incoming emails from [Natural News](#) with a skepticism (or cynicism?) similar to readers of National Enquirer, I must admit that occasionally "*The Health Ranger*" does come up with something that catches my interest. I reprint here – without permission or further comment – his recent article on Monsanto.

Even more new and cutting edge articles from our prestigious Board of Advisors and Directors as well as more of Carolyn's translations of articles from current German journals are underway for Volume #12 issues of this newsletter.

Next month we will again be featuring an article from OIRF Medical Advisor **Michael Galitzer, MD** on a new technology. I invite all of you to maintain your email or print subscription to "The Bridge" newsletter. All 2016 issues of "The Bridge" will be sent to you by email and then published on our website. **Access is open to all**. Follow this link to get your PDF print copy of "The Bridge" Volume 12, Issue #3.

🔄 Plans are well underway for the **43rd Biological Medicine Tour to Germany**. Dates are now set to coordinate with the new format of the **50th Medicine Week Congress** and the tour will run from **26 October through November 1, 2016**.

Organizers of the Medicine Week Congress have not yet completed or set their lecture schedules. Already there are numerous English language lectures being organized and we will work as closely as possible with them so that you have the opportunity to participate in many of those excellent lectures.

Additionally – as usual – there will be several exclusive lectures for our tour participants only. Confirmed speakers include:

- Prof. Dr. **Hendrik Treugut** (our Keynote Speaker this year!)
- Dr. **Daniel Beilin** (AlfaThermographic Diagnostics)
- Dr. **Silvia Binder** (ONDAMED Therapy)
- Dr. **Friedrich Douwes** (Integrative Cancer Therapy)
- Prof. Dr. **Ivan Engler** (Ionized Oxygen Therapy)
- Dr. **Dietrich Klinghardt** (Biological and Energy Medicine)
- Dr. **Nuno Ruivo** (MORA BioResonance Therapy)

During separate sponsored programs at Med-Week you will have the opportunity to hear lectures from:

- Dr. **Anita Kracke** (Sanum)
- Dr. **Gudrun Mекle** (Sanum)
- Dr. **Ralf Oettmeier** (Paracelsus Clinic)
- Dr. **Siddhartha Popat** (Dyckerhof RNA Therapy)
- Dr. **Thomas Rau** (Paracelsus)
- Dr. **Uwe Reuter** (Klinik im Leben)
- Dr. **Georg Stommel** (Dyckerhof RNA Therapy)
- And as many others as we can manage to work in!

All of this within 6 days of lectures means that our schedule is tight and very busy every single day. As your "*Gruppenführerin*" (group leader) Carolyn will definitely be turning into a strict task master to ensure that we stay on schedule! However, between the celebration of the 50th Anniversary at Med-Week and the OIRF topnotch exclusive lectures this tour program is offering participants the opportunity to hear some of the most respected researchers and clinicians in our field.

At the request of a number of practitioners, we will be offering several options and discounts for accompanying spouses. See full preliminary details and registration information on our Germany Tour website page and on Page 27 of this Issue. Then let us take care of all the mundane in-Germany travel and administrative duties as we guide you through a memorable and educational experience.

Follow this link to [Germany Tour #43](#) for full details and registration information.

➡ Did you miss Dr. Simon Yu's **Acupuncture Meridian Assessment Training** workshop in St. Louis Missouri March 18-20? This workshop was very well presented and all participants left being able to do basic EAV-type testing. All participants were given detailed information on application of Dr. Yu's testing, diagnostic and therapy procedures as well as ample hands-on testing training. Other lectures and training were given by Dr. Robert Cass (Physica and A-IBS), Gordon Johnston (Kindling) and Carolyn Winsor (OIRF and Med-Tronik).

Although restricted to MD and DDS, a repeat boot-camp workshop will be held in St. Louis, Missouri on August 26-28, 2016. Plan now to attend this excellent workshop.

Be sure to see information about Dr. Simon Yu's **Acupuncture Meridian Assessment Training** workshops on Page 19 & 20 as well as a detailed listing of **Conferences and Conventions** on Page 26-29. Plan today which events you will participate in to support these speakers and organizations.

➡ Continuing in this issue (Volume 12, Issue #3) you will find another in a series of articles with concepts that are readily applicable with the methods and devices recommended by OIRF. We will show you the benefits and some of the possible applications of these methods and concepts. The emphasis will be on **practical everyday application** – on how you can utilize each particular method in your practice.

But, **we need your support**. Even though we are a non-profit organization we must still pay the staff, the bills and the expenses. If our research, publication and sponsorships in this field are to continue, we need to increase our (up until now minimal) fund raising activities.

We ask for your continued and ongoing financial support as we move forward into 2016:

- 1) Consider making a donation to OIRF for the newsletter (even though we are offering it freely)
- 2) Be sure that you have purchased copies of the many educational printed and electronic publications and the audio/video training presentations available exclusively through OIRF
- 3) Plan now to attend the various smaller instructional seminars and meetings sponsored by OIRF to learn more about these methods
- 4) Incorporate sale of the smaller OIRF recommended devices (such as the Medisend Protect, MECOS, the "Little Ludwigs", the AQA 707 water regeneration device, and so on) to your patients – talk to Elaine or Carolyn for quantity discount pricing.
- 5) Make this the year you travel to Germany with us to see Medicine Week – this is the 50th Anniversary for this venerable Congress and we are anticipating a larger than usual participation that will include many of our advisors and directors.
- 6) Consider which of the various devices and methods recommended by OIRF will work in **your** practice and make this the year that you add one or more of them into your office
- 7) Plan to attend the various conferences and conventions where OIRF will sponsor an exhibit/educational booth to see these methods in action and talk to us personally about how you can incorporate these methods into your practice

It is my great pleasure to announce another new member to our elite and prestigious "North American" Board of Medical Advisors.

Daniel Beilin, OMD, LAc

Clinical Logistics and Education Consultant for
Complementary Medicine Clinics and Hospitals

Dr. Daniel Beilin was born in Los Angeles and has practiced complementary medicine for 31 years. He has a neurophysiology, gastroenterology and herbal pharmacology background. His first scientific endeavor included his own designed laboratory research at the UCLA Brain Research Institute, studying evoked potentials in the brain at the age of 16. Dr. Beilin has been recognized for his teaching and education on early detection of women's cancers by dynamic thermography methods and testified before the U.S. Congress

bringing this possibility to the forefront, as well as importing 3 complementary methods from Europe to North America (Electrodermal Devices, Darkfield Hematology and Regulation Thermography).

From his website, www.fortifyhealth.com, he provides consultation services to help those who feel the causes of their symptoms are not being fully addressed by conventional methods or services. Dr. Beilin outlines strategies for patients to help overcome diseases and dysfunctions using non-toxic dietary modifications, life style changes and herbal supplementation, at the same time raising awareness for emotionally co-created disorders. Dr. Beilin focuses on causal factors in disease, often neglected and responsible for recurrence of many disorders including cancer. Dr. Beilin practices yoga, meditation and the martial arts.

"Medicine today is only as effective as its understanding of natural and biochemical laws. It has yet to create a greater emphasis on building optimum health for cells that are just beginning to fail."

Dr. Beilin's 8 years of experience in medical research and applications (UCLA and UC Davis) in the fields of Neurology and Gastroenterology created over 30 peer-reviewed articles in Journals such as Stroke and Endoscopy, as he also invented an injection catheter system now used routinely in endoscopy.

Dr. Beilin has also created several nutritional supplements including the antidepressant "Well Mind" produced today by Allergy Research Group, as Dr. Beilin was the first to publish and gain recognition for the herb St. John's Wort, from which came its use today as a potential natural replacement to some antidepressants.

Dr. Beilin has lectured for famous personalities such as Anthony Robbins, Dietrich Klinghardt, M.D., William Rea, M.D., Hans Nieper, M.D. and Jonathan Wright, M.D.. His patients have included well-known personalities as Jane Seymour and Stevie Wonder.

As the CEO and Chairman of the OIRF Board of Directors, I want to welcome Dr. Beilin and thank him for his willingness to come onto our Board of Medical Advisors. We are grateful for his participation and look forward to working more closely with him in the future. Watch the OIRF website for updates and changes to the listings of advisors and directors. *Carolyn*

The Power and Flexibility of MORA® BioResonance

Three Client Cases

By Marguerite Lane, ND

© Copyright 2016, Marguerite Lane, ND, Gordon, NSW, Australia

The MORA doesn't ever let me down. The more ways I know of using it, the more powerful it seems to become. And so every article I write illustrates ways to work with the MORA BioResonance device.

People with chronic illnesses rarely have one complaint. The various complaints need to be investigated for a common underlying pattern, or string of interrelated causes. This article will discuss three clients who presented with the following health issues:

1. **Client 1** – Insect bites still inflamed after 9 months, weakness of legs particularly ascending steps, stiffness, reflux, dry skin and fatigue after carbohydrates.
2. **Client 2** – Seizures accompanied by urinary and fecal incontinence, chronic throat infection, allergies, morning nausea, constipation, joyless and irritable, rosacea, night terrors, frequent infections and milk intolerance.
3. **Client 3** – Sweating, stiff joints, bleeding haemorrhoids with anal pruritis, bloating and “feels toxic”.

Client #1 – Insect bites, stiff weak legs

Insect bites can inject not only neuroactive venoms, but also bacteria, viruses, fungi and parasites. Usually our immune systems deal with these challenges, but sometimes the immune system doesn't have the resources to win out. I encourage MORA therapists to assemble a collection of common insects in glass vials. These can be used for testing and matching of energy patterns, as described in this first case.

MFC, a 62 year old woman presented with several long term problems. Nine months previously she had been bitten multiple times by an insect on her ankles and feet. Five of the bites were just as inflamed and itchy as they had been at the beginning. She did not know what insect had bitten her.

In addition, she had a long term weakness of her legs making it very difficult to walk up hills or ascend stairs. She said that this had first appeared 4 years ago after taking Lipitor for 3 months.

All joints were stiff and it was hard to get up out of a chair without thinking about it and lifting herself using her arms and shoulders.

Her skin was very dry.

Her digestion was poor, and she complained of heartburn and also fatigue after eating foods high in carbohydrates.

MORA testing

Using the MORA with Dr Cornelissen's test set, I found that her stomach acid (using sarcode pylorus) resonated at pH = 4.0 (normal is approximately 2.5). This explained her reflux, as the lower esophageal sphincter is not sufficiently stimulated to close tightly if the stomach pH is not low enough. This results in weakened sphincter musculature, allowing stomach fluids and contents to push upwards with the natural churning motion of the stomach.

Resonance was noted with the following toxic metals: Cadmium, Aluminum and Nickel. Her copper levels were elevated. Overall toxicity registered at 515 scale units.

In first consultations I test only the most common foods for intolerance. In this case I found resonance with wheat and spelt. I test foods for intolerance using Abar (also called A inverted or Ai) mode.

Nutrients which resonated (suggesting either a deficiency or inability to utilize the nutrient) were zinc, magnesium, molybdenum, and vitamins A, B3, D and folic acid.

Using separate test vials I found resonance with various pathogenic residues. I call them residues because it is not possible for me to determine whether they are active, or perhaps only fragments a previous illness: Ross River Virus⁽¹⁾, Mycoplasma spp, Mycoses, Sandfly, as well as vials of collected ticks and of collected mosquitoes. I keep a collection of actual insects in vials for testing purposes and highly recommend that you do the same, since they contain not only venoms, but local bacteria, viruses and parasites.

Treatments

The treatment programs developed by Dr Cornelissen are especially powerful, as they use both MORA processors in the MORA Super simultaneously in an alternately pulsing manner. I run at least one of these programs for every client.

(1) Australia's most common mosquito-borne illness. It is a member of the *Togaviridae* family of arboviruses. RRV is transmitted in an animal host-vector-human cycle, where the vector is the mosquito. <http://medical-dictionary.thefreedictionary.com/Ross+River+Virus> accessed 7 Feb 2016.

The best practice is to select supportive and drainage remedies for the first treatment, and nosodes and various antidotes for the second treatment. This way, the channels of elimination are stimulated in the first treatment, and then the body is given instructions for removal of the irritants and burdens to health in the second treatment.

Here are the treatments administered at the end of this first consultation:

Program # 78 – Supportive treatment

Input: MT1 beaker – drop of blood on filter paper

ELH drainage remedies:

For lymph system – Calendula injeel forte, Echinacea compositum forte, Galium Heel, Lymphomyosot

For Kidneys – Berberis Homaccord (also liver), Solidago compositum

For Mucus Membranes – Mucosa compositum

ELH nutrient patterns, to encourage the body to absorb and utilise these nutrients when present in foods: zinc, magnesium, molybdenum, and vitamins A, B3, D and folic acid

Program # 77 – Neutralisation treatment

Input: MT1 beaker – drop of blood on filter paper, vials for Ross River Virus 10M potency, Mycoplasma spp 30C potency, sandfly 30C, physical ticks, physical mosquitoes

ELH 4 types of mycoses (from mycoses test set), Cadmium, Copper, Yellow Fever⁽²⁾

Notice that I only treated one of the toxic metals. I have found that certain metals are difficult for the kidneys to eliminate, and if combined, will cause detoxification symptoms due to overloading of the eliminative capabilities. Therefore, if cadmium, mercury or lead are to be eliminated, they must be treated at separate consultations. Other metals such as aluminium, nickel, palladium, etc, can be combined in a single treatment.

Appointment #2

At her second appointment, the client reported that she had noticed that her urine had an odd smell for two or three day following the treatments. She also observed a throbbing sensation in her body the first day, plus fatigue. Her skin had itched for a few days.

After that, she was able to walk noticeably faster, including going up hills. One insect bite had healed. Her skin was not as dry, and her stiffness was improving.

Testing revealed only one mycosis (Notatum), a low potency of Ross River Virus (30C) and toxicity was now resonating at a level of 370 (Recall that it was 515 at first appointment).

(2) Note that the resonance for Yellow Fever may indicate Zika virus, or other similar viruses. For my purposes it isn't important to isolate the exact virus. If there is a resonance with a nosode, the treatment provides the nosode and the resonance is neutralised.

So this treatment was straight forward: a supportive treatment with drainage remedies similar to the previous appointment because they still resonated with her, and the following eliminative treatment:

Program #77

Magnetic probe held over the remaining insect bites

ELH: nickel, aluminum, chemicals which resonated at amplification 370

In addition, I used the MORA to create a bottle of drops (purified water with 10% medical grade ethanol) into which the electromagnetic pattern of Rhus tox was imprinted. I used a separate potentizer to bring the potency to 1 M. I asked her to take this once a day to assist with the stiffness which she experienced after periods of inactivity.

Appointment #3

By now the insect bites had faded to a slight pink with only a mild itch. Her stiffness was even more improved, particularly in the knees. After the previous treatment she had noticed for one day that her urine “felt hot” and had a “different” smell, and she had increased thirst.

Her toxicity level resonated at 170, and I tested for chemicals at this level of amplification.

The treatments were similar to the previous appointment, although she no longer needed the frequency patterns of any nutrients, and then I decreased the potency of the bottle of Rhus tox since she was finding it quite strong.

She reported that her reflux was gone. You will note that I had not treated it. This is part of the advantage of working on underlying causes – the body heals itself once its intercellular communication and nutrient utilization improve. Her stomach pH was now resonating at 2.5.

Appointment #4

The last insect bite had almost disappeared. She reported an incredible increase in strength, with stiffness at a level of zero. She was able to go on a long walk for several hours, including hills, and had no weakness. Even her massage therapist had commented that her muscles felt relaxed. She was especially pleased that she could now just “spring up” out of a chair without thinking about it.

Her toxicity level was resonating below amplification of 30, which is my arbitrary line in the sand for acceptable, as the body will now be able to remove toxins as quickly as they arrive.

I used the Allergy test set to find the entire list of foods to which she reacted, so that I could begin the desensitization today.

Treatments

Program # 78 as before, same drainage remedies. Magnetic probe on the remaining insect bite, for the last time.

Program #76

ELH: list of foods

Output: vial of water, used for NAET treatment. I like to use the NAET procedure after a MORA desensitization, because I believe it increases the effect of the treatment.

By the time this is published, she will have come in once more so that I can retest the foods and verify that the way is clear for her to reintroduce the foods one by one. That will conclude her treatments.

Client #2 – Seizures, infections, abuse

This is an example of how multiple levels of problems (emotional, physical) must all be dealt with simultaneously, while everyday health challenges cause acute problems that temporarily complicate the picture.

When I first saw this 45 year old client, she had reported a history of physical and emotional abuse at the hands of foster parents, recurrent mononucleosis as a child, and a traumatic divorce three years ago, involving emotional abuse. She was taking micardis 40mg/day.

Her symptoms included multiple seizures over the past year in which she would experience a feeling of heat in her body at the onset, with sweating. During the seizure she lost bladder and bowel control. Understandably, this was very distressing to her.

She also reported a chronic throat infection with mucus and phlegm, worse in the mornings, allergies to penicillin (anaphylaxis), sulfa drugs, overripe fruit (causing urticaria), contact allergy to dust, intolerance to dairy products, pork and bananas. This last had been the case ever since receiving a hepatitis vaccine. She also had rosacea on her face.

She suffered from lower abdominal pain, daily morning nausea, and constipation. A recent ultrasound had shown all structures to be normal.

Emotional symptoms included night terrors (screaming, unable to wake from the hallucinations, as she described them), a feeling of joylessness in everyday life, and irritability.

MORA testing

MORA testing found a resonance with a level of toxicity at 1100, toxic metals: arsenic, lead, cadmium and nickel, mononucleosis 1M potency, wheat and dairy intolerance. Nutrients which were blocked or deficient were zinc and vitamin B6. I was unable to finish testing as we had spent a great deal of time on her history. Despite this, I had plenty of information for her first treatments.

Treatments

Program #78

MT1 beaker: a drop of blood on filter paper

ELH: drainage remedies to support the channels of elimination:

Berberis Homaccord (kidneys, liver)

Echinacea compositum forte (lymph and immune systems)

Engystol (immune system)

Galium Heel (lymph system)

Graphites Homaccord (skin)

Lymphomyosot (lymph system)

Mucosa compositum (mucous membranes)

Natrium Homaccord (emotional support, past traumas)

Aethusa cynap 200K (emotional support, past traumas)

Program # 77

MT1 beaker: Mononucleosis 1M vial

ELH: Cadmium

I prescribed daily Kefir, Vitamin C 1500 mg twice a day, Zinc once a day, Vitamin B6 once a day.

Appointments # 2, 3 and 4

By the third time I saw her, her seizures had completely stopped. Her energy was improving, she had no further infections or sore throats, only occasional nausea, no phlegm in the mornings, no constipation.

She noticed a clumsiness and aching in her hips and legs, which resonated to the homeopathic remedy Lathyrus.

At all levels she was improving, but she was scheduled to work for 3 weeks in an aged care facility in a remote area of the state and she felt vulnerable.

When I saw her next (appointment #4) she was not feeling well. She reported that on the way back to Sydney she had been caught in the rain and wind, and got sick. She tried

acupuncture immediately but she got worse. Then she went to a local doctor who prescribed Rulide after diagnosing bacterial bronchitis.

She currently had a low grade fever, sore throat, bronchial phlegm, and shooting pains in the right breast (which started when she took the Rulide, she said).

When a client has a sudden downturn, I devote my testing and treatment to the acute problem at hand.

MORA testing

I used the Nosode test set and found resonance with several bacterial nosodes (Staph, Strep, Pyrogenia) along with Influenza vesiculosis and Pneumococcinum, Coxsackie B2 and Grippe V2. There was also resonance with various mycoses nosodes.

Treatments

First I administered Point Therapy using sarcodes for immune system structures: Granulocytes, Thymus, Lymph Nodes and Spleen. These structures resonated with various nosodes for Mycoses and Strep, as well as the drainage remedies: Sanum Notakehl and Exmykehl, Heel Mucosa compositum, and homeopathic remedies Bryonia 200K and Kali sulph 200K.

I applied the Point Therapy to her Lung meridian Ting points on her thumbs.

Next I administered the usual two Cornelissen programs:

Program 78 with the sarcodes and drainage remedies used in the Point Therapy

Program 77 with the viral, bacterial and mycotic nosodes used in the Point Therapy

I used the MORA to prepare antidote drops for all the bacterial nosodes in my test sets. These drops act as a universal antibiotic without causing any adverse effects on the digestive tract milieu. She was instructed to take 4 drops, three to four times a day, decreasing the frequency as the symptoms disappeared.

Appointment # 5 and 6

Her immune function improved progressively over the next two appointments, and her symptoms eased to a dry cough and fatigue, and then to a phantom tonsil pain (hx tonsillectomy) and inner ear feeling of heaviness.

I continued as previously, matching supportive drainage remedy combinations, sarcodes and nosodes. I resumed testing and treatment of toxins, as her acute symptoms were no longer urgent.

After these appointments she reached a turning point at last!

Appointment #7

When I next saw her 2 weeks later, she had once again had to work at a nursing home, but did not have any subsequent adverse health issues. All of her previous symptoms were gone and she was feeling strong and much more alive.

Her toxicity was now resonating at 605 and we continued to target chemicals (xeno-estrogenic persistent organic pollutants, from the Cornelissen test set).

Appointment #8

This was an interesting appointment because although she was significantly improved (no need for thyroid medication and had not taken it for months, no mucus, still no seizures, no morning nausea, no lower abdominal pain, emotional balance and no night terrors for a long time), she had experienced dizziness recently.

I tested the sarcode Labyrinth and found that it resonated with some of the bacterial and viral nosodes (Streptococcus, Staphylococcus and Coxsackie strains), as well as the drainage remedies Phytolacca and Ferrum phos. This suggests that she had a mild inner ear infection. I applied point therapy using the nosodes and drainage remedies. This completely cleared the dizziness.

Consultations are ongoing with this client, but we are approaching the end of treatments. As soon as her toxicity levels come down to 100 or less, I will test all foods for sensitivities, and then administer the MORA desensitizing treatments (as described above for client #1). This will remove the remaining burdens particularly from her immune system (reacting to foods as if they are pathogens) and digestive system.

Client #3 – Sweating, stiff, “feels toxic”

The last case to be discussed reminds us to always consider toxins as one of the underlying causes. In this case, there was an acute exposure to airborne pollutants. The MORA gave the first confirmation that something was amiss in the environment, and eventually the police got involved to solve the environmental problem.

This female client, age 48, had seen me in previous years about various health issues. The last time I saw her she was feeling good and her toxicity was low. So when she appeared in my clinic this time (27/9/14) I knew it would be a recent illness, probably with acute symptoms.

She complained of episodes of sweating accompanied by a constant tightness of her joints, as well as anal pruritis, bleeding haemorrhoids and bloating. She said she “felt toxic”.

This constellation of symptoms had started after she spent a few weeks with her mother in a nearby medium size city (Newcastle NSW, Australia). She described a recent terrible smell in the neighborhood where her mother lived, which permeated the house. Her mother was experiencing breathing difficulties.

Whenever a client who was previously in good health appears with a sudden worsening of nonspecific symptoms, alarms bells sound in my mind. The problem usually springs from an acute exposure to toxins. I have seen a large variety of toxin-induced symptoms, mimicking (or actual) celiac disease, hot flushes, influenza, debilitating fatigue, pain anywhere in the body, bleeding from any orifice, nausea, unremitting thirst, and on and on. The first substance I test is Roundup®, since it is the most commonly used poison, and people spray it around like water. After that I test other common garden toxins such as Weed Seed®, Confidor®, Diazenon®, etc. I have glass vials of each substance, collected over the years.

MORA Testing

First I measured her level of toxicity, which resonated at 950. This is a very large increase from her previous low level (less than 100), so I knew I was onto the underlying cause.

I found no match with Roundup® or the other common garden poisons, so I went to the Cornelissen test set where there is a list of the top 20 most prevalent, most poisonous environmental toxins. Here, with amplification set to 950, she resonated with Dioxin and Misc Solvents. My client had anticipated that it would involve toxins, so she had collected an air sample. This is easily done by placing an open glass jar of water in the area suspected of having toxins, and leaving it there for at least 24 hours. Then put the cap on and bring it in.

Treatments

Program 78

ELH: Calendula-Injeel forte, Carduus marianus Injeel forte, Taraxacum Injeel forte, Echinacea compositum forte, Galium Heel, Mucosa compositum, Natrium Homaccord

Program 77 – MT1 beaker contained the air sample (water)

ELH: Dioxin, Misc Solvents

Appointment #2

Two weeks later she returned. She had contacted the Office of Environment and Heritage - Environmental Forensics Division, as well as the local government council. She suspected that there was an illicit drug lab operating in the area.

Her symptoms were easing, although she reported depression. Her toxicity was down to 575. MORA testing found resonance with Hexachlorophen, Isocyanate, Misc Solvents and Atrazine.

Treatments

Program 78

ELH drainage remedies: Calendula Injeel forte (lymph), Carduus marianus injeel forte (liver), Echinacea compositum forte (lymph and immune system), Galium Heel (lymph) and Mucosa compositum (mucous membranes)

Program 77 – MT1 beaker contained the air sample (water)

ELH Hexachlorophen, Isocyanate, Misc Solvents and Atrazine

In addition to the MORA treatments, I decided to test and treat her with the Ondamed Pulsed EMF device as a direct and wholistic way to address her nervous system and depression.

Ondamed treatment (frequencies and programs selected by radial artery reaction, also known as the Vascular Autonomic Signal):

Frequencies 2.00 Hz (Heart) and 11585.23 Hz (Gall bladder)

Program 22 – Band D, which has an antidepressant effect if selected by Vascular Autonomic Signal

Program 70 – Old Overloads, which can affect both physical overloads such as toxins, as well as emotional burdens

Appointment #3

The client had visited her mother and was feeling “very toxic” again. She had a persistent headache, and shingles. She was very pleased with the effect of the previous treatments because they had caused her to have a dream where she relived an incident (sexual molestation) from childhood that had caused post-traumatic stress. She felt that the emotional burden had lifted.

Program 78 – Drainage remedies as for previous appointment.

Program 77 – ELH Herpes zoster and H. simplex

Hexachlorophen, Isocyanate, Misc Solvents, Atrazine, PAK, PCB, PCP, Parathion

Ondamed Module I, frequencies 5.99 Hz (Liver) and 645.07 Hz (Circulation)

Last appointment

She felt much better. Her toxins resonated at a level of 40.

In the meantime she had a blood test which showed Cadmium, Lead and abnormally low Calcium. She had arranged for her mother to have a blood test, which came up with similar results.

I tested sarcodes related to calcium absorption and utilization. The sarcode for Parathyroid gland was the only one that resonated, so I applied Point Therapy using Pulsatilla as the drainage remedy and Cadmium, Lead and Aluminum as the substances which resonated to be cleared.

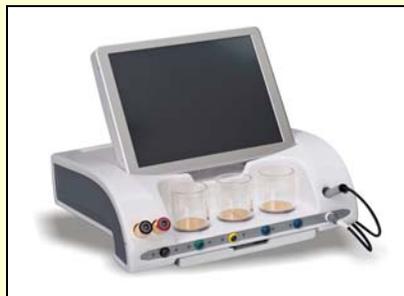

Then I used the MORA to imprint water-alcohol drops with drainage remedies: Calendula Injeel forte (lymph), Carduus marianus injeel forte (liver), Echinacea compositum forte (lymph and immune system), Galium Heel (lymph) and Mucosa compositum (mucous membranes). I instructed her to take them for several days, and several times a day when she visited her mother.

End of story

In May 2015 the client received a report from the Office of Environment and Heritage - Environmental Forensics Division. They had tested an air sample (45 second duration) for Volatile Organic Compounds and found Trichlorofluoromethane, Dichlorofluoromethane, Chloromethane, Ethanol, Acetone and Toluene. These certainly qualify as “misc solvents”. The other substances that the MORA indicated were not tested by the governmental agency.

In the June-July timeframe, the police located 4 illicit drug labs in the area. They were dismantled and their operators arrested. Since that time the air quality (subjectively assessed) has significantly improved. She has had no recurrence of symptoms or elevated toxicity and her mother feels much better, too!

If you would like more information on how I use the MORA, the Occidental Institute has a 1-day course I taught last year, entitled **MORA BioResonance Therapeutic Possibilities – Getting the BEST out of your MORA Technology**. It is packed full of my favorite tips and techniques with demonstrations for using the MORA with full power.

The MORA Nova by Med-Tronik

4 DVD SET NOW AVAILABLE!

MORA BioResonance Therapeutic Possibilities

Getting the BEST out of your MORA Technology

Date: Thursday, September 10, 2015 – COMPLETED! You missed it!

Intended audience: For beginners and advanced MORA® BioResonance users. For whatever model you are using, learn the true BioResonance Therapy applications.

You have the MORA, but how do you get the **best** out of it? This one-day lecture course guides you gently, starting with how to think about the way the MORA works, how to think about your patient's health problems, and how to match the two for optimum treatments.

For beginners, or for those who need a refresher, the basic concepts of classical BioResonance are clarified. Learn how to immediately provide effective treatments even if you don't know what you're doing yet.

As the day progresses, you receive expert guidance on how to tackle the most common underlying problems in health, including candidiasis, influenza, hay fever, food intolerances, "tummy bugs", Lyme disease, dental support, and hormonal issues. You will also learn how to verify that the treatment you've given has already been effective. Cases are presented to provide additional concrete information and summarize the day's information.

Lecture course features **Marguerite Lane, ND** from Australia. She has been in full time private practice since 2002 and has used the MORA Super since 2003. She is specialized in the BioResonance techniques of **Dr. Gottfried Cornelissen** of Germany.

This course was sponsored by **Occidental Institute Research Foundation** and presented in conjunction with the **Gateway Fdn. for Biological & Integrative Medicine** prior to the famous "Curing the Incurables" Conference held in St. Louis, Missouri September 2015.

We encourage you to take advantage of this opportunity to benefit from the therapy application and information presented by this well respected and experienced practitioner. Video was professionally filmed and edited.

Set of 4 DVDs US \$150 plus shipping (available for immediate shipment).

➡ Here is a picture of the new MORA-Beauty specially designed for cosmetic applications. Four modules with software and appropriate accessories provide highly effective and delegable applications for: smoking cessation, relaxation, detoxification, stress relief, revitalization, cellulite and wrinkle reduction, weight loss, and optimization of nutrition. See more detailed information on this amazing device on our website at: www.oirf.com/inst-morabeauty.html

The complete history of Monsanto; the world's most EVIL corporation staffed by society's most hate-filled people

by Mike Adams, the Health Ranger, NaturalNews Editor

(NaturalNews) How much do you really know about Monsanto beyond the fact that the corporation is extremely evil? Most people's knowledge of Monsanto barely scratches the surface. Monsanto is far more than just a dangerous threat to humanity that profits from weedkiller chemicals linked to cancer; it's also the same entity that gave rise to **Agent Orange**, saccharin, aspartame, deadly PCBs and pesticides with dioxins.

The entire history of Monsanto has been one of creating deadly, toxic chemicals that devastate human populations and then lying about their toxicity (while profiting from their widespread use that poisons the planet). There is no single greater chemical threat to humanity that exists on this planet right now than the Monsanto corporation, and its chemical poisons are faithfully mirrored by the poisonous personalities and sleaze tactics of its attack dogs who troll the internet to discredit all scientists and activists that oppose Monsanto's "chemical domination" agenda. (Much of Wikipedia is now run by biotech trolls, by the way, who specialize in internet disinfo terrorism tactics like the hit piece recently waged against GM Watch.)

A website called [The Last American Vagabond](#) has published a comprehensive history of Monsanto, and it's so good that I'm reprinting some of it here (while encouraging you to see the full article there).

Here's the beginning of it:

Of all the mega-corps running amok, Monsanto has consistently outperformed its rivals, earning the crown as "most evil corporation on Earth!" Not content to simply rest upon its throne of destruction, it remains focused on newer, more scientifically innovative ways to harm the planet and its people.

As true champions of evil, they won't stop until...well, until they're stopped! But what is Monsanto and how did they get to be so obscenely evil in the first place? I think that's the best place to start this journey, so grab a few non-GMO snacks or beverages and let's go for a ride into the deep, murky sewers of their dark past.

1901: The company is founded by John Francis Queeny, a member of the Knights of Malta, a thirty year pharmaceutical veteran married to Olga Mendez Monsanto, for which Monsanto Chemical Works is named. The company's first product is chemical saccharin, sold to Coca-Cola as an artificial sweetener.

Even then, the government knew saccharin was poisonous and sued to stop its manufacture but lost in court, thus opening the Monsanto Pandora's Box to begin poisoning the world through the soft drink.

1920s: Monsanto expands into industrial chemicals and drugs, becoming the world's largest maker of aspirin, acetylsalicylic acid, (toxic of course). This is also the time when things began to go horribly wrong for the planet in a hurry with the introduction of their polychlorinated biphenyls (PCBs).

Even though PCBs were eventually banned after fifty years for causing such devastation, it is still present in just about all animal and human blood and tissue cells across the globe. Documents introduced in court later showed Monsanto was fully aware of the deadly effects, but criminally hid them from the public to keep the PCB gravy-train going full speed!

1930s: Created its first hybrid seed corn and expands into detergents, soaps, industrial cleaning products, synthetic rubbers and plastics. Oh yes, all toxic of course!

1940s: They begin research on uranium to be used for the Manhattan Project's first atomic bomb, which would later be dropped on Hiroshima and Nagasaki, killing hundreds of thousands of Japanese, Korean and US Military servicemen and poisoning millions more.

The company continues its unabated killing spree by creating pesticides for agriculture containing deadly dioxin, which poisons the food and water supplies. It was later discovered Monsanto failed to disclose that dioxin was used in a wide range of their products because doing so would force them to acknowledge that it had created an environmental Hell on Earth.

1950s: Closely aligned with The Walt Disney Company, Monsanto creates several attractions at Disney's Tomorrowland, espousing the glories of chemicals and plastics. Their "House of the Future" is constructed entirely of toxic plastic that is not biodegradable as they had asserted. What, Monsanto lied? I'm shocked!

1960s: Monsanto, along with chemical partner-in-crime DOW Chemical, produces dioxin-laced Agent Orange for use in the U.S.'s Vietnam invasion. The results? Over 3 million people contaminated, a half-million Vietnamese civilians dead, a half-million Vietnamese babies born with birth defects and thousands of U.S. military veterans suffering or dying from its effects to this day!

Monsanto is hauled into court again and internal memos show they knew the deadly effects of dioxin in Agent Orange when they sold it to the government. Outrageously though, Monsanto is allowed to present their own "research" that concluded dioxin was safe and posed no negative health concerns whatsoever. Satisfied, the bought and paid for courts side with Monsanto and throws the case out. Afterwards, it comes to light that Monsanto lied about the findings and their real research concluded that dioxin kills very effectively.

Monsanto partners with I.G. Farben, makers of Bayer aspirin and the Third Reich's go-to chemical manufacturer producing deadly Zyklon-B gas during World War II. Together, the companies use their collective expertise to introduce aspartame, another extremely deadly neurotoxin, into the food supply. When questions surface regarding the toxicity of saccharin, Monsanto exploits this opportunity to introduce yet another of its deadly poisons onto an unsuspecting public.

**Acupuncture Meridian Assessment (AMA) Training for
Detecting Parasites and Dental Problems
Training Designed for MD, DO and Dentists
August 26-28, 2016
St. Louis, Missouri
Training By *Simon Yu, MD***

Do you have life-time chronically ill “professional” patients that simply aren’t healing no matter what you do? Or may appear to be improving but don’t really get well? What is missing in your medical evaluation and treatment plan? The missing links might be overlooked parasites and dental problems.

Over the last 30 years of my medical practice, I have developed a specialized use of a medical tool that assists doctors in detecting the root causes of illness when conventional medicine fails. Isn’t this something you would want to know about? It is called Acupuncture Meridian Assessment (AMA).

I have been incorporating Acupuncture Meridian Assessment as part of my medical evaluation for almost twenty years. It has led to rather unique accidental discoveries of parasites and dental related medical problems, among others, that are often overlooked by conventional and alternative medical doctors. However, when these are addressed, conditions that are difficult to heal often get resolved.

I want to share this information so we, as medical doctors collaborating with dentists, can increase the chance of healing of what was once considered, Incurables. Therefore, it is my sincere attempt to conduct a special training for medical and dental professionals on how to quickly obtain information through the use of Acupuncture Meridian Assessment. My AMA method is a simplified, modified version of EAV (Electro-Acupuncture according to Dr. Voll) and should not be confused with classical German EAV or Electrodermal Screening (EDS).

My primary focus is teaching practitioners how to check a few essential acupuncture points to look for disturbances which might be an indication of parasites or dental problems. This training covers many clinical case histories that will amaze you with the healing results that occur where prior numerous doctors and specialists failed to succeed.

Over the years, I also developed a simple enhancement to AMA that includes a Color and Frequency Therapy to create a Phase Contrast to uncover hidden medical/dental problems. This addition has shown excellent results for un-cloaking difficult cases.

We cannot make a final diagnosis based on Acupuncture Meridian Assessment alone but it can be a valuable tool to assist your clinical decision making. It offers a quick insight – a Pattern Recognition – into initiating treatment and for monitoring the progression of healing. AMA can be applied in conjunction with standard medical/dental evaluations.

The class consists of lectures and lots of hands on boot camp drills for two and half days on March 18-20, 2016 and August 26-28, 2016. This class will be small, hands on, somewhat experimental, and spontaneous. There will be two additional instructors from Canada, **Dr. Robert Cass** representing Avatar EAV and **Gordon Johnston** representing Kindling EAV.

Dr. Cass has been practicing successfully with EAV for 42 years. He is the director of the Academy of International BioEnergetic Sciences which offers 100 Hour Certification EAV courses and EAV Master Classes throughout the USA, Canada, Europe, and the Far East. He is also the formulator of Physica Energetics hand crafted Spagyric botanicals, homeopathics, and matrix nutritionals.

Doug Cook, DDS, will also join us for special training on dental elements of AMA. He has over 50 years of experience in dentistry and over 40 years with AMA.

My primary objective is keeping it simple: uncovering parasites and dental related medical problems. Once you have this basis, you'll be able to use AMA for understanding allergies and other hidden medical problems. We'll touch on these other areas as well.

I believe two and half days is sufficient time for you to learn to apply AMA for your patients in the week immediately following this training. The attendees, on a volunteer basis, will also be evaluated by me using AMA during the training.

This training is specifically geared toward, and limited to, MD's, DO's and DDS's who have an active medical/dental practice.

Equipment: If you have your own Ohm meter or old EAV device, you may bring it with you. There will be two representatives for EAV/AMA equipment, from Avatar, USA and Kindling, Germany.

Cost: Special Rate of \$900 USD if you register and pay at least two weeks before the training. Space is limited. Otherwise, the rate is \$1,000 USD. Two lunches are included on Friday and Saturday. It is not refundable. Repeat attendee rate is \$600 USD.

Contact: Prevention and Healing, Inc. and ask for Kate, Office Manager, at 314-432-7802 or send email to simonyumd@aol.com with your contact details and we'll get in touch with you for payment.

Location: Prevention and Healing Clinic, 10908 Schuetz Road, St. Louis, MO 63146

Time: Starts at 8:30 am Friday morning till evening around 9:00 pm. Saturday starts at 8:30 am till 5:30 pm. Saturday there will be a group dinner and tour of St. Louis. Sunday starts at 8:30 am until 1:00 pm.

Recommended Reading: *Acupuncture Meridian Assessment: New Medicine based on Ancient Principles* on the Articles page of my web site at www.preventionandhealing.com and my book, *Accidental Cure*, available through my website.

Recommended Hotels:

Comfort Inn Westport: 12031 Lackland Rd, St. Louis, MO 63146
Phone: 314-878-1400 or 888-725-8988. Be sure to mention "Dr. Yu" and the code of "LDRYU" for a special rate.

Hilton St. Louis Frontenac: 1335 South Lindberg Blvd, St. Louis, MO 63131 Phone: 314-993-1100.

Free Shuttle service available between the airport, hotel, and Clinic.

The Acupuncture Meridian Assessment program described on the previous pages is highly recommended by OIRF and we suggest that our MD, DO and DDS members register early to ensure a place in these workshops. Your Director, **Carolyn Winsor**, will be presenting a lecture on "*The Past, Present and Future of Point and Medication Testing Techniques*". Carolyn has been actively involved in the field of Biological Medicine since the founding of Occidental Institute in 1972. We hope to introduce the new RM10 EAV device from Med-Tronik, Germany.

Videotaped "DIAGNOSTICS" AND "THERAPEUTICS"

Seminar/Workshops by Dr. Walter D. Sturm† of OIRF Staff

* 1944-2004 †

Part One on Diagnostics:

- Electronic point measurement
- Medication testing, and more

Part Two on Therapeutics:

- **MORA-Therapy**
- Electronic Homeopathy
- Remedy Information Transfer, and more
- *Optional day on his other therapies!*

Follow this link to see a full description of these videotaped "[Diagnostics and Therapeutics Seminar/Workshops](#)" by the late Dr. Walter D. Sturm† of the OIRF Staff.

Available on five (5) DVD's plus one (1) CD with all overheads and extensive handouts materials for CDN \$200 (plus shipping).

Published in Canada by: **Occidental Institute Research Foundation**
P. O. Box 100, Penticton, BC V2A 6J9 Canada

Practice Applications:

MORA® Nova

True BioResonance Therapy with the Patient's own Frequency Spectrum
From Med-Tronik – The Home of MORA® BioResonance

**Design meets Technology
For Innovation
In Diagnostics and Therapy**

MORA® Nova

State-of-the-Art MORA BioResonance Therapy

MORA® Nova incorporates the original BioResonance Therapy research according to *Dr. Franz Morell* and *Mr. Erich Rasche* with the latest and most up-to-date technology, innovative software and perfection in every detail and design. **MORA® Nova** offers everything you need for easy and effective application in your practice with more than 35 years of experience in the proven MORA BioResonance method plus new design, ease of operation, enhanced therapy options and last but not least, State-of-the-Art technology.

MORA® Nova Features:

<ul style="list-style-type: none"> • Easy navigation via 15-inch touch screen with full visual display even in sitting position • Space saving integration of input and output cup electrodes (removable for cleaning) • Space saving integration of foot electrodes • MORA® Mouse function 	<ul style="list-style-type: none"> • Indication of active electrodes • Display inclination adjustable • New stylus design with extended functions • Integration into an existing network / Central control by an administrative PC • Graphic images of measuring point as well as the respective organ • Graphic menu navigation
---	--

Technical Data:

<ul style="list-style-type: none"> • 2 channel technology • 2 Interfaces (Mode A + Abar – inverted A) • Scott-Morley for 2 channels and significant technical improvement • Frequency range: 0.1 Hz to 1 MHz • Filter adjustment range: 1Hz to approx. 900 kHz • Amplification 0.1 to 1 Million per channel and mode • Modular design (channels, interface, etc.) • Integrated PC • Laser electrodes (Optional) • Electronic remedy software (Optional) 	<ul style="list-style-type: none"> • Programs with up to 16 single steps • Selective automatic 4 or 6 segment measurement • Automatic detection Hypo/Hyper • Extension of standard fixed programs • Therapy recommendation from the EAP-measurement • Therapy cycles freely adjustable 1 – 65,000 • Pulse/Pause adjustable 0.1 – 100 sec. • Integrated MORA®-Mouse, cup electrodes • Graphic display of measuring points • Square-wave generator 1 Hz to 500 kHz • Sine-wave generator 1 Hz to approx. 250 kHz
---	---

Additional MORA® Nova Features:

<ul style="list-style-type: none"> • Allergies – diagnosis and treatment • Cornelissen test- and therapy mask • Indication oriented standard programs w/o EAP test • Global Scaling Basic therapies • Psychosomatic programs acc. to Nienhaus • Color therapy acc. to Gruba 	<ul style="list-style-type: none"> • Color therapy (e.g. mirrored nature images during the therapy session) • Music therapy (Psychophonia) via headphones • Addiction therapy, drugs, alcohol, etc. • Individual software for faculties • And much, much more . . .
---	--

List of Electronic Test Sets for Therapy with the Nova® MED Professional

Individual Test Sets – All test sets together comprise approximately 20,000 single substances	Test Set Group – Contains single test sets selected for the user at special pricing conditions
<ul style="list-style-type: none"> • 5-Elements • Allergy • Alzheimers & Dementia (Cornelissen) • Bach flowers • Biological catalysts • Chemical elements • Degeneration & Mitochondropathy (Cornelissen) • Dental • Geopathy • Labo Life • Meridian test set (Morell) • Mycosis • Nosodes • Orthica – Orthomolecular substances • Sanum • Schüssler Salts • System test set (Cornelissen) • Heel • Wala 	<p>NOVA-Elements Group</p> <ul style="list-style-type: none"> • 5-Elements • Allergy • Bach flowers • Chemical elements • Geopathy • Mycosis • Nosodes • Schüssler Salts • Horvi • Meridian test set <p>Individual Test Sets (Continued):</p> <ul style="list-style-type: none"> • Horvi – snake serum and enzymes • Pascoe – homeopathic substances • Pekana • Vitortho – Orthomolecular substances • Inus – Orthomolecular substances • MJS – Orthomolecular substances • Color test set

Some Practice Applications (Mora Therapy):

- Allergies and Food Intolerances
- Geopathic stresses
- Functional Circulatory disorders
- Acute and chronic pain and inflammatory conditions
- Metabolic disorders
- Building immune system.
- Delivery of medication information.
- MORA BioResonance Therapy will always increase speed and efficacy of complementary therapies.
- Can also be complemented by:
 - BioPhoton Therapy – especially for skin rashes and other skin disorders
 - Inhaled Ionized Oxygen – for increase of healing energy and regeneration of cell respiration
- Follow this link for [MORA BioResonance details](#).
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

Carolyn’s Comment: Recently we have watched some of our top rank Naturopaths going back to the books to prepare for the dreaded “prescribing exam”. Personally I wonder about why our NDs are being trained and examined to prescribe (allopathic) medications when as Naturopaths they would normally “prescribe” homeopathics, supplements, herbs, etc. On the other side of the coin we are seeing our homeopathics and natural remedies being taken off the market by Health Canada and the US FDA. Where can we now turn for remedies for our patients? Note that Sanum, Heel and other North American “discontinued” remedy companies are definitely licensed and included in the software above . . .

The MORA® Nova Segment Test

The MORA® Nova Segment was initially devised with one purpose in mind, the allocation of inputs and outputs based on the patients' energetic needs.

The basis for this being a resistance measurement using the hand and foot electrodes, the device measures the skin resistance and compares it to the considered norm values, 80 – 88 on the measurement dial. Anything above 88 is considered an "Itis" value (Energetically high) and anything below 80 is considered an "Ose" value (energetically low). So how does it work?

We all remember the story of Robin Hood, stealing from the rich and giving to the poor. With the segment test the principal is the same. High values i.e. values over 88 have too much energy (rich) and are thus designated as input (input from patient to device), low values i.e. values below 80 have too little energy (poor) and thus are designated as outputs (output from device to patient). So the MORA® Nova becomes Robin Hood so to speak, distributing the energetic wealth by taking from the energetically high quadrants and giving to the energetically low quadrants. Thus assigning electrode inputs and outputs automatically before a therapy starts based on the bodies individual needs.

Experienced therapists can also use this information to determine which quadrant might have a problem and focus the diagnosis and therapy on the organs and/or systems within that quadrant.

Nuno Ruivo, DO
Your MORA® Training team.

"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook (An Outline of Chinese Acupuncture) and set of four charts (by China Cultural Corp.). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD

Price includes disc with all 33 Lessons, applicable supplementary textbook (An Outline of Chinese Acupuncture) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

➤ **OIRF Resource Materials:**

- For more information and instruction about point and medication testing with EAV see the OIRF: [Medication Testing Report](#) and the [EAV Desk Reference Manuals](#) (both available on disc).
- For more information and instruction about [Diagnostic and Therapeutic Techniques in Biological Medicine](#) with emphasis on BioResonance Therapy be sure to order the recently re-released videos of Dr. Walter Sturm's seminars.
- For a complete [listing of OIRF resource materials](#), including publications, reports, books and videos please follow this link to our website. There are full descriptions of all printed and recorded materials online.
- For a complete [listing of OIRF recommended instrumentation](#), including diagnostic, therapeutic and BioResonance devices please follow this link to our website. There are full descriptions of all instrumentation online.
- Of the three full "home-study" or "extension training" programs developed by Occidental Institute, two have been fully updated and are available in PDF format on disc. Research and publication of each of those programs has been pivotal in the development and application of Acupuncture and Biological Medicine in North America and around the world. Be sure to obtain your copies of these famous and well respected volumes for your library and study purposes.
 - Modern & Traditional Acupuncture: \$165
 - Master of Acupuncture Program: Translations of the ancient acupuncture classics (The Nei Ching consisting of the Su Wen and Ling Shu, as well as the "Difficult Classic" the Nan Ching) are still available in printed format – \$125 Work on scanning and reformatting these materials will progress slowly as time allows during our busy summer and fall seasons.
 - EAV Desk Reference Manuals, Parts 1 & 2 – \$200
 - Diagnostics and Therapeutics Seminars of Dr. Sturm – \$200

Get more details at <http://www.oirf.com/resources.html>

➤ **Conferences and Conventions:** As an ongoing approach to bring this information and education to a broader range of practitioners this year OIRF will sponsor speakers and lecturers in a number of conferences and events throughout the USA, Canada and Germany. Here are **some** of the events where our OIRF Board of Directors and Advisors are giving presentations and participating. As we work through the cold but busy winter season, plans are well underway for many more events during 2016.

Plans and registrations for OIRF to be present at a number of important conferences throughout the US, Canada and Germany have been arranged, and we are looking forward to an exciting and busy year. It is our hope that you will join us in our efforts to expand the use and knowledge of Biological Medicine in Canada, the USA and around the English speaking world.

Occidental Institute Research Foundation

43rd Biological Medicine Tour to Germany

Wednesday, Oct. 26 through Tuesday, Nov. 1, 2016

Theme: Experience and Science: Diagnosis and Treatment
Possibilities with High Practical Relevance

Coordinated and Hosted by: Carolyn L. Winsor,
OIRF Managing Director

Accompanied by OIRF Medical Advisor: Marguerite Lane, ND
OIRF Board of Directors and Board of Advisors

Beautiful Baden-Baden in the Fall!

- Visit and participate in the famous **Baden-Baden Medicine Week Congress**

Here's part of the group gathering outside the Medicine Week Congress House

- Our private lectures present the latest information and research in our field, with ample time for questions and hands-on

Keynote Speaker: *Prof. Dr. Hendrik Treugut*, Pres. DGEIM, Researcher

Plus exclusive English language lectures for OIRF group:

- **Daniel Beilin, OMD LAc** - AlfaThermodiagnostics
- **Silvia Binder, ND PhD** – ONDAMED Therapy
- **Friedrich Douwes, MD** – Integrative Cancer Therapy
- **Prof. Ivan Engler, MD PhD** – Inhaled Ionized Oxygen Therapy
- **Dietrich Klinghardt, MD** – Biological & Energy Medicine
- **Nuno Ruivo, DO** – MORA BioResonance Therapy

English Program at Med-Week coordinated by OIRF:

- **Gudrun Mekte, MD** – Practitioner and lecturer (Sanum)
- **Ralf Oettmeier, MD** - Practitioner and lecturer (Paracelsus)
- **Thomas Rau, MD** – Practitioner and lecturer (Paracelsus, Sanum)
- **Uwe Reuter, MD** – Practitioner and lecturer (Klinik im Leben)
- **Georg Stommel, MD** – Dyckerhof RNA Therapy

And as many others as we can manage to work in!!

- Presentations from a famous German Biological Medicine Clinics
- Presentations by several instrumentation companies on the practical application
- An opportunity to talk with like-minded colleagues and learn from the experience and expertise of attending OIRF Directors and Advisors.
- Be treated like family with good food, good friends and good conversation in friendly hotels
- Travel in comfort with plenty of room for luggage, and stay in a family run hotel located in the vineyards close to Baden-Baden.
- Tour price of \$3,795 includes full tour program, 7 nights single room and all but a few meals.
- **Register early!** Limited available spaces are already filling.

For full information and registration details:

Phone: (250) 490-3318

Toll Free: 1-800-663-8342

Website: www.oirf.com

Germany Tour details at:

www.oirf.com/germany2016.html

Be sure to check out the announcements of events and conferences enclosed and on the [Calendar of Events](#) on our website. Make plans **today** for which events you will attend during 2016. Your support for the organizers is greatly appreciated, and gives you the return of fascinating, informative and educational programs that will enhance your practice – and CEU's! OIRF directors, advisors and/or members are active in each of the recommended events. See Pages 19 & 20 and 26-29 for further details.

➤ **Date changes for English language MORA Therapy and BioResonance training sessions.** The standard three training sessions ([Basic](#), [Advanced and Masters](#)) have been combined into one intensive 5½ day seminar/workshop called the **MORA® Power Week**. This session will be held in Friesenheim, Germany at the Med-Tronik training center on **July 4-9, 2016**. You can see [full content and registration details here](#).

➤ **Acupuncture Meridian Assessment Training** for MD, DO and DDS. Primary focus is teaching medical practitioners how to check a few essential acupuncture points to look for disturbances which might be an indication of parasites or dental problems. This training covers many clinical case histories that will amaze you with the healing results that occur where prior numerous doctors and specialists failed to succeed. Class consists of lectures and lots of hands on “boot camp” drills for 2½ days held in St. Louis Missouri on August 26-28, 2016. Sponsored by **Dr. Simon Yu** and also featuring **Dr. Robert Cass, Dr. Doug Cook, Gordon Johnston** and **Carolyn Winsor**. To register contact Kate, Office Manager at 314-432-7802 or [Prevention and Healing](#)

➤ **Training as a Mayr Physician in the English language!** For the first time in more than a decade, the *International Society of MAYR Physicians* is holding an English language training program from 29 May through 10 June 2016. Course will be held at the Kurhotel Vollererhof, Salzburg Austria. Course instructor will be **Dr. Sepp Fegerl**. Full certification is available only for Medical Doctors, however all other practitioners are welcome to take the training for reduced certification. This is an exceptional opportunity. All interested should contact OIRF for further details or contact the Mayr Society directly at office@fxmayr.com (be sure to mention OIRF).

➤ **50th Anniversary Medicine Week Congress**, Oct. 28 through Nov. 1, 2016 in Baden-Baden, Germany with OIRF Advisors, Directors and Germany Tour participants attending. Usually more than 3,000 doctors participate with nearly 200 lectures, workshops and courses (German and English language). Main theme for 2016 not yet announced – but it will be a great celebration! Exhibit area with more than 220 exhibits provides you with an excellent insight into the big product offerings in natural healing and complementary medicine. There you can find out directly, and compare. Contact OIRF for attendance possibilities.

➤ **Biological Medicine Tour #43 to Germany, October 26 through November 1, 2016** (all dates now confirmed). Join us for our **43rd** group tour including the world famous “Medicine Week” Congress in Baden-Baden. Tour program also includes exclusive OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits. Speaker, event and activity schedules have been posted on our website at: www.oirf.com/germany2016.html . Registration for this program is now open and attendance for the program will be strictly limited. (Is this enough notice?) We strongly recommend early registration. Meet us in Frankfurt to participate in this exciting and exclusive program.

➤ As US certifications for the MORA Beauty are finalized, OIRF and Med-Tronik will be sponsoring exhibit areas at a number of conferences throughout the USA and Canada during 2016. Watch for dates and locations to be announced in coming weeks for an opportunity to see this remarkably effective device that can rapidly generate income for your practice.

- See the **MORA Beauty** at **A4M Las Vegas, Nevada on Dec. 9-11, 2016**, Booth 5084
- More dates to follow . . .

➤ **MORA BioResonance Therapeutic Possibilities**, 1 day course on therapeutic applications with **Marguerite Lane, ND**, Australia. 4 DVD set of video recordings are now available through OIRF for US \$150 plus shipping. [Note: All backorders will ship during the first week of March.]

➡ Follow this link to our website to see Issue #3 in print/PDF format.

➡ **Updates, Reminders and Announcements:**

➤ Again! Register now for the **43rd OIRF Biological Medicine Group tour to Germany for 2016**. This 43rd Germany Tour will take place in conjunction with the **50th Anniversary Medicine Week Congress in Baden-Baden** in Oct/Nov of **2016!** Confirmed dates are set for Oct. 26 to Nov. 1, 2016.

➤ Watch for Volume 12, Issue #4 of the “The Bridge” newsletter to arrive in your Inbox around mid-April 2016. Additionally, there are a number of new and exceptionally well written articles by Med-Tronik researchers and instructors that have been published in the German CO'Med journal. Carolyn is busily translating as many of them as possible for the newsletter issues. The April issue will feature an article from esteemed OIRF Advisor, **Dr. Michael Galitzer** introducing the amazing (and US registered) **UVLrx**.

- Visit our **Facebook** page – will you be our friend?

I trust you have found much of interest in these pages. Many of our 2016 events and activities have been fully arranged and finalized, and we are looking forward to participating in numerous conferences while supporting the many speakers and complementary organizations. Additionally there are various

informational articles being prepared for the next Issues of Volume 12 of "The Bridge". Electronic publication with access open to all will continue throughout 2016 and we will continue bringing you that cutting edge information for which OIRF is famous.

We look forward to meeting you during our forthcoming 2016 activities and programs. As always your comments are welcome. Remember that this is your newsletter – your suggestions, article contributions, critiques, FAQ's and compliments – are gratefully accepted.

Yours in health,

Carolyn

Late Breaking Book News!

This is the story of ONDAMED, a medical device. Its father, Rolf Dieter Binder conceptualized this technology over many years and finally birthed it into this world in 1994. ONDA-MED is a Latin word and stands for Wave-Machine.

This book is the biography of ONDAMED and the impact it has had on millions of people around the globe. The device and if so chosen, the unique biofeedback loop, taps into our cellular communication pathways to stimulate our bodies' innate wisdom and healing ability to jump-start body regulation. Its fine-tuning ability to what and where repair and regeneration are needed is directed by the patient's pulse reaction. It is the patient who directs the individualized need for therapy to her or him, not chosen by conscious brain-based decisions, but with help fo the autonomic nervous system which cannot be manipulated. It acts like a mirror into the patient's health journey over their entire life span.

Disease has a pattern, a rhythm, which can be observed by a skillful therapist and brought to the attention of the patient so they may recognize the pattern and offer the chance for the patient to stop it and create a new pattern. This may be supported by the healthcare professional and the use of the ONDAMED which so powerfully and ever so gently recalibrates our cellular vibrations.
